YOUR NEW TRUCK

The new truck just delivered to you has been thoroughly inspected, adjusted and lubricated by your Mack Mid-Line service center. You can help extend the long life built into it with a proper break-in and by adhering to the following suggestions:

As moving parts "wear in", or as gaskets "take a set", an occasional oil, air or coolant leak may develop. Quick action to detect and correct these minor mechanical items will prevent a major repair later, saving you inconvenience and unnecessary expense. So, please stop in at your local, or any other Mack Mid-Line service center just as soon as any abnormal condition becomes noticed.
