

# All General-Purpose Split-Phase and Capacitor Motors (Pages 8-9)

## HAVE THESE SEARS FEATURES

### LIFETIME LUBRICATION

All ball-bearing motors have bearings sealed in with a special formula, top-quality grease that ensures long, trouble-free service.

The 2-pole sleeve-bearing motors are filled with 100% felt working oil both a large reserve of oil in suspension and discharges oil over bearing surfaces. Oil slingers on shaft prevent leakage.

Both sleeve types require no lubrication throughout normal motor life.

### LEAK-PROOF OILER

General-purpose sleeve-bearing motors have a new type oiler plug securely fitted into the oil shield to provide constant pressure between the felt wick and motor shaft. Plug is self-sealing, (leakproof); the improved wick and packing ensure ample oil storage and uniform distribution.

### EXTRA COOL OPERATION

Either an extra large "booster" fan with half-size (2-pole models), or two fans — one at each end (all other models) provide positive motor cooling. The resulting uniform, top-efficient cooling helps prevent motor burnout.

### TOUGH NYLON INSULATION

Up to 35 times greater moisture resistance and 8 times greater physical strength than ordinary insulation . . . gives maximum protection.

### DEPENDABLE STARTING

Improved type centrifugal governors assure "no-run" starts — every time — and longer trouble-free life.

### NEMA-TYPE BASES

All motors have NEMA standard mounting bases . . . which assures easy, simple application on any equipment manufactured with provision for NEMA-type mounting.

### PERFORMANCE TESTED

Each motor is individually tested before it is packed to ensure maximum performance and quality. Each design of motor is built to perform at the very top of its NEMA rated rating . . . thus ensuring full rated HP and performance.

### ANY POSITION OPERATION

New, improved oil retention design of all sleeve-bearing motors now makes it unnecessary to mount such motors upright. With this new feature all Sears motors (sleeve as well as ball bearing) can be mounted in any position . . . with shaft up, down, or at any angle!

### BUILT-IN GROUND LUG & CONDUIT CONNECTION

These make it easy to make permanent ground connection and/or conduit line connections.

### LIGHT-WEIGHT, HEAVY-DUTY CONSTRUCTION

Streamline designs reduce weight up to 30% . . . but increase ruggedness and service life of motors. 2-pole models have fully guarded, strong die-cast shells. Other models have new full-size, straight shells that provide larger bearing surfaces . . . also, improved motor design that eliminates all electrical noise.

### CUSTOM ENGINEERED

Each motor is custom designed for a specific line of applications. No compromises are necessary with this complete Sears line. There is a motor designed for every job.

### DUST-PROOF SWITCH

Sand, dust, lint and other foreign matter cannot cause motor failure because all vital contact points are permanently shielded and protected. This important feature gives Sears fractional hp. motors a marked superiority for many tool, appliance and blower applications.

### QUICK-CONNECT TERMINALS

Simplified, readily accessible terminal board with plug-in, quick-connect wiring takes cut wiring time in half. These make it easy to reverse rotation or to change for voltage on models designed for 115/200V.
