

Life Story

What Is It and How Do You Write It?

Amy Houser, Family Sciences; Brian Downen, Farha Zanjani, and John Watkins, Graduate Center for Gerontology

Do you remember when you met your spouse? How much did you pay for your first house? What was your experience like when you went to school or started your first job? Perhaps these things seem ordinary to you. But what if you were asking your parents or grandparents these questions? Would their stories seem uninteresting? Most likely not! In fact, many of us wish we knew more about our family history and experiences.

A life story is an account of the series of events and experiences that make up our life and represent who we are. Our account starts at birth and continues throughout our lives, but few document or share their accounts. Because we never know when our time will be up, it is important to share experiences while we are still able and before disease or other circumstances prevent us from doing so. Writing our own life story or the story of someone we love can be a rich and rewarding experience.

The Benefits of Documenting and Sharing a Life Story

Life story is important for many reasons. It helps explain who we are, where we've been, where we are and how we got here. It can even provide insight on future choices and inspire dreams and aspirations. Documenting and sharing your life story

- Contributes to an active brain, well-being and mental healthfulness
- Reinforces a sense of purpose
- Creates self-awareness
- Invites self-exploration
- Influences future decision making
- Encourages communication
- Strengthens relationships, including caregiving relationships
- Authenticates family history and legacy

Writing a Life Story

It is common to find an excuse or put off talking about life story. "I'm too busy." "I'll sit down with Grandma next week when I have more time." But one day, we may not have that opportunity due to a variety of life's circumstances including accidents, illnesses and even death. When time runs out, untold stories and valuable lessons are lost forever. Whether it is our own or that of someone we love, writing a life story can be a rich and rewarding experience. It is also a gift that can last for generation after generation. To get started, it is important to be organized, prepared, and flexible.

To successfully capture a life story

- **Be prepared.** Prepare questions in advance. Find a quiet time and place to limit interruptions. Use a voice or video recorder in addition to taking notes. Use memory aides that trigger the senses such as photos, mementos, smells and sounds.
- **Be flexible.** A life story will likely take more than one sitting to capture. For some people, much of their story may surround a defining life moment, such as childhood or war time. Be sensitive to these moments, ask questions/reflect and listen extra-carefully to yourself or to others as it is likely that you will uncover rich experiences, emotions, values, beliefs and layers of complexity that help you better understand yourself or the person you are interviewing. Don't force topics that cause discomfort.
