The stored readings may be recalled by simply pressing the memory button. Whether the monitor is used to distinguish sustained hypertension from white-coat hypertension, improve patient compliance to treatment or as a preventive health management program, it can all be monitored using only one button.

The 16mm digital display makes this monitor easy-to-read and offers a unique simultaneous readout of systolic and diastolic pressure, and pulse.

This monitor is available in two cuff sizes: large and medium (small cuff is available separately). The UA-779 Advanced Inflation Sensor also includes a storage case. A large print instruction guide and quick start card are clearly written in English, French and Spanish.
