Knowing Governance Jan-Peter Voß, Richard Freeman, 2016-01-26 Knowing Governance sets out to understand governance through the design and making of its models and instruments What kinds of knowledge do they require and reproduce How are new understandings of governance produced in practice by scientists and policy makers and by the

publics with whom they engage **Criminology** Piers Beirne, James W. Messerschmidt, 2014 This is a comprehensive introduction to the study of crime and criminological theory for criminology courses The authors take a critical sociological approach which emphasizes the relationship between gender class race age and crime Definitions of crime and the measurement of crime are subjected to a critical analysis that focusses on the social construction of crime and crime rates The book addresses historical feminist and comparative perspectives highlighting the major types of crime and victimization patterns It is of most interest to those who teach criminology out of a sociology department those who are sociologists teaching the course out of CJ or any instructor for whom a critical approach is key **The Twilight Struggle** Hal Brands, 2022-01-25 A leading historian's guide to great power competition as told through America's successes and failures in the Cold War If you want to know how America can win today's rivalries with Russia and China read this book about how it triumphed in another twilight struggle the Cold War Stephen J Hadley national security adviser to President George W Bush The United States is entering an era of great power competition with China and Russia Such global struggles happen in a geopolitical twilight between the sunshine of peace and the darkness of war In this innovative and illuminating book Hal Brands a leading historian and former Pentagon adviser argues that America should look to the history of the Cold War for lessons in how to succeed in great power rivalry today Although the threat posed by authoritarian powers is growing America's muscle memory for dealing with dangerous foes has atrophied in the thirty years since the Cold War ended In long term competitions where the diplomatic jockeying is intense and the threat of violence is omnipresent the United States will need all the historical insight it can get Exploring how America won a previous twilight struggle is the starting point for determining how America can successfully prosecute another high stakes rivalry today *Climate Change and Post-Political Communication* Philip Hammond, 2017-11-28 For many years the objective of environmental campaigners was to push climate change on to the agenda of political leaders and to encourage media attention to the issue By the first decade of the twenty first century it appeared that their efforts had been spectacularly successful Yet just at the moment when the campaigners goals were being achieved it seemed that the idea of getting the issue into mainstream discussion had been mistaken all along that the consensus building approach produced little or no meaningful action That is the problem of climate change as a post political issue which is the subject of this book Examining how climate change is communicated in politics news media and celebrity culture *Climate Change and Post Political Communication* explores how the issue has been taken up by elites as potentially offering a sense of purpose or mission in the absence of political visions of the future and considers the ways in which it provides a focus for much broader anxieties about a loss of modernist political agency and meaning Drawing on a wide range of literature and case studies and taking a critical and contextual approach to the analysis of climate change communication this book will be a valuable resource for students and scholars of environmental studies communication studies and media and film studies New Critical Spaces in Transitional Justice Arnaud Kurze, Christopher

K. Lamont,2019-01-10 Since the 1980s transitional justice mechanisms have been increasingly applied to account for mass atrocities and grave human rights violations throughout the world Over time post conflict justice practices have expanded across continents and state borders and have fueled the creation of new ideas that go beyond traditional notions of amnesty retribution and reconciliation Gathering work from contributors in international law political science sociology and history New Critical Spaces in Transitional Justice addresses issues of space and time in transitional justice studies It explains new trends in responses to post conflict and post authoritarian nations and offers original empirical research to help define the field for the future **Functional Performance in Older Adults** Bette R Bonder, Vanina Dal Bello-Haas, 2017-12-04
