he didn't have access to some of the more powerful ways to hack your job like only checking email once a day or blocking out time on your calendar to do deep work. In fact, he found that even when he landed a prestigious title at the Times, there were moments when he was still overlooked and excluded from the most interesting and career boosting work. This led him to first explore these struggles in a Times piece titled *Productivity Without Privilege*. Now he goes even deeper interviewing experts across multiple fields to come up with powerful tools to overcome the forces of marginalization. In *Seen, Heard and Paid*, Henry shares the new work rules that may finally allow people of color, women, and LGBTQ folks to have the same access to career advancement and rewarding work as those with more privilege including *How to Be Seen*, *Only Spend Time on Work that Gets You Attention*, *How to Be Heard*, *Figure out your unique contribution*, *How to Get Paid*. Then we walk you step by step through a series of PC building projects. We show you how to build five different types of PC: a basic business PC, a home theater PC, a high performance PC, a killer gaming PC, and a budget PC. And if building a new PC from scratch isn't in your budget, we show you how to resurrect an old PC by swapping out a few key components.
