Human Development Robert V. Kail, John C. Cavanaugh, 2013
Balanced coverage of the entire life span is just one thing that distinguishes HUMAN DEVELOPMENT: A LIFE SPAN VIEW, 6TH EDITION. With its comprehensive, succinct and applied coverage, the text has proven its ability to capture students' interest while introducing them to the issues, forces and outcomes that make us who we are. Robert V. Kail's expertise in childhood and adolescence combined with John C. Cavanaugh's extensive research in gerontology result in a book with a rich description of all life span stages and important topics. A modified chronological approach traces development in sequential order from conception through late life while also dedicating several chapters to key topical issues. This organization also allows the book to be relatively briefer than other texts, a benefit given the enormous amount of information covered in the course.

Lifespan Development Janina M. Jolley, Mark L. Mitchell, 1996
The authors wrote this book to help students think like developmental psychologists. Specifically, they want students who read this book to critically examine claims about the nature and causes of development, have a clear understanding of the major issues in developmental psychology, to understand what developmental psychologists have learned about the development of memory, intelligence, attachment and other developmental issues.
