Handbook of Psychological and Educational Assessment of Children Cecil R. Reynolds, Randy W.

Kamphaus, 2018-10-16 The two volumes of the Handbook of Psychological and Educational Assessment of Children Second Edition cover all aspects of child and adolescent assessment. Leading clinical scientists summarize the state of the science of assessment paradigms, instruments, and methods. With an emphasis on practical clinical considerations, chapters also delve into issues related to test development, psychometrics, and bias. Conveniently designed for reference or text use, this vast knowledge base has been synthesized into two volumes which may be purchased separately or together. INTELLIGENCE APTITUDE AND ACHIEVEMENT surveys assessment of intelligence, learning styles, and academic achievement; covers historical issues and psychometric methods and addresses diversity issues, ethical concerns, and special topics in mental testing. PERSONALITY, BEHAVIOR, AND CONTEXT reviews the use of projective methods, interviewing, and observation and objective methods of assessing personality and behavior; discusses the assessment of specific syndromes and symptoms and presents tools for assessing adaptive skills and the family context.

Iraq - From War to a New Authoritarianism Toby Dodge, 2017-10-03 Iraq recovered its full sovereignty at the end of 2011 with the departure of all US military forces. The 2003 invasion was undertaken to dismantle a regime that had long threatened its own population and regional peace, as well as to establish a stable democratic state in the heart of the Middle East. This Adelphi looks at the legacy of that intervention and subsequent state building efforts. It analyses the evolution of the insurgency, the descent into full scale civil war, and the implementation of the surge as a counterinsurgency strategy. It goes on to examine US and Iraqi efforts to reconstruct the states military and civilian capacity. By developing a clear understanding of the current situation in Iraq, this book seeks to answer three questions that are central to the countrys future: Will it continue to suffer high levels of violence or even slide back into a vicious civil war? Will Iraq continue on a democratic path as exemplified by the three competitive national elections held since 2005? And does the new Iraq pose a threat to its neighbours?
