Fuzzy Differential Equations and Applications for Engineers and Scientists S. Chakraverty, Smita Tapaswini, Diptiranjan Behera, 2016-11-25 Differential equations play a vital role in the modeling of physical and engineering problems such as those in solid and fluid mechanics viscoelasticity biology physics and many other areas In general the parameters variables and initial conditions within a model are considered as being defined exactly In reality there may be only vague imprecise or incomplete information about the variables and parameters available This can result from errors in measurement observation or experimental data application of different operating conditions or maintenance induced errors To overcome uncertainties or lack of precision one can use a fuzzy environment in parameters variables and initial conditions in place of exact fixed ones by turning general differential equations into Fuzzy Differential Equations FDEs In real applications it can be complicated to obtain exact solution of fuzzy differential equations due to complexities in fuzzy arithmetic creating the need for use of reliable and efficient numerical techniques in the solution of fuzzy differential equations These include fuzzy ordinary and partial fuzzy linear and nonlinear and fuzzy arbitrary order differential equations This unique work provides a new direction for the reader in the use of basic concepts of fuzzy differential equations solutions and its applications It can serve as an essential reference work for students scholars practitioners researchers and academicians in engineering and science who need to model uncertain physical problems **Applied Mechanics Reviews**, 1996 *International Conference for Innovation in Biomedical Engineering and Life Sciences* Fatimah Ibrahim, Juliana Usman, Mas Sahidayana Mohktar, Mohd Yazed Ahmad, 2015-11-26 This volume presents the proceedings of ICIBEL 2015 organized by the Centre for Innovation in Medical Engineering CIME under Innovative Technology Research Cluster University of Malaya It was held in Kuala Lumpur Malaysia from 6-8 December 2015 The ICIBEL 2015 conference promotes the latest researches and developments related to the integration of the Engineering technology in medical fields and life sciences This includes the latest innovations research trends and concerns challenges and adopted solution in the field of medical engineering and life sciences JPT.
