EU Directive 2002/95/EC, "Waste of Electrical and Electronic Equipment Directive (WEEE)" requires that distributors, retailers, and manufacturers of consumer electronics in the European Union. The WEEE Directive requires the producer of consumer electronics to take responsibility for the management of waste from their products to achieve environmentally responsible disposal during the product's life cycle.

GDPR compliance may not be required in your location for electronic & electronic engagement (EE), nor may it be required for EIR designed and intended as final or temporary installation in transportation vehicles such as airplanes, ferries, and boats. In some European Union member states, these vehicles are considered outside of the scope of the Directive, and EIR in these installations can be considered excluded from the GDPR (vehicle movement).

The symbol (WEEE) indicates that the product should not be disposed of with other household wastes. It must be disposed of and collected for recycling and recovery of waste EEE. Arnoani Company Marine Electronics, Inc. will work at EEE products in accordance with the WEEE Directive. It is our goal to comply in the collection, treatment, recovery and environmentally safe disposal of these products, however, these requirements do vary within European Union member states. For more information about where you should dispose of your waste equipment for recycling and recovery, please visit your European Union member state authorities.
