Dynamic Well Testing in Petroleum Exploration and Development Huinong Zhuang, Yongxin Han, Hedong Sun, Xiaohua Liu, 2020-05-12 Dynamic Well Testing in Petroleum Exploration and Development Second Edition describes the process of obtaining information about a reservoir through examining and analyzing the pressure transient response caused by a change in production rate The book provides the reader with modern petroleum exploration and well testing interpretation methods including their basic theory and graph analysis It emphasizes their applications to tested wells and reservoirs during the whole process of exploration and development under special geological and development conditions in

oil and gas fields taking reservoir research and performance analysis to a new level This distinctive approach features extensive analysis and application of many pressure data plots acquired from well testing in China through advanced interpretation software that can be tailored to specific reservoir environments *Pressure Transient Formation and Well Testing* Fikri J. Kuchuk, Mustafa Onur, Florian Hollaender, 2010-08-04 This reference presents a comprehensive description of flow through porous media and solutions to pressure diffusion problems in homogenous layered and heterogeneous reservoirs It covers the fundamentals of interpretation techniques for formation tester pressure gradients and pretests multiprobe and packer pressure transient tests including derivative convolution and pressure rate and pressure pressure deconvolution Emphasis is placed on the maximum likelihood method that enables one to estimate error variances in pressure data along with the unknown formation parameters Serves as a training manual for geologists petrophysicists and reservoir engineers on formation and pressure transient testing Offers interpretation techniques for immediate application in the field Provides detailed coverage of pretests multiprobe and packer pressure transient tests including derivative convolution and pressure rate and pressure pressure deconvolution **Drilling and Production Practice** American Petroleum Institute, American Petroleum Institute.
