apply clinical knowledge and correctly identify the single best answer to a question but also to learn why the other answers are wrong greatly increasing the clinical acumen and learning opportunity of the reader Selection tests and competitive exams are hurdles that a candidate seeks to clear with ease It all depends on meticulous preparation and the quality of resource materials available to the student Considering the quantity of subject matter that needs to be covered it becomes a herculean task unless the candidate chooses the right training tool Reference texts are often too advanced and undergraduate texts are insufficiently updated or lacking in depth and detail In this context a lack of good revision aids can be frustrating This book has been compiled with the selection tests in mind as a tool for rapid revision and analytical learning It is useful for doctors dental students graduates dental nurses technicians as well as specialists seeking professional excellence or for those studying for the various licensing exams conducted by SCFHS Saudi Board HAAD OMSB SCHQ DHCC DHA and MOH This book aims to provide dental students with a useful source for exam preparation as well as for supplementing the readers knowledge so that they feel fully prepared for the various postgraduate entrance examinations
