The author examines in depth the major areas of psychological research across family, peer and romantic relationships, education, work, ethnic/racial socialization and identity, prosocial behavior and civic engagement, and the mental and physical health of African Americans today. With a focus on real life applications, the text includes pedagogical elements introducing topics in Current Events, Interventions in Practice, Individual Issues, African Cultural Values and Media and Technology. Additional features include learning objectives in each chapter, discussion questions, a closing summary, an extensive trove of additional resources and PowerPoints, and a sample syllabus for instructors.
