The Multi Business Model Innovation Approach Peter Lindgren, 2022-09-01 It is argued in most academic literature that Business Model BM is a general model for how any business runs or should be run it is the blueprint of the business Conversely we argue that no business has just one BM one model on which it runs all its business or intends to run its business In other words the BM can be used for as is and the to be businesses However our research in contrast to the other BM frameworks indicates that businesses have more BMs both as is and to be BMs the multi business model approach This was already theoretically indicated by Markides and Charitou in 2004 and again in the Casadesus Masanell and Ricart model of 2010 but sadly no one in the BM community has followed up on this since then It could have made a breakthrough in our understanding of BMs Business Model Innovation BMI and Strategic BMI The Multi Business Model Innovation Approach addresses the concerns in the BM community and in BMI practice to just focus on the ideation and conceptualization of BMs BM canvassing innovating BM building blocks or BM dimensions when carrying out BMI so called blind business model innovation is not sufficient to run and understand a business today BMs and BMI must address all the different levels in a business All BMs are objects to BMI and should be used to maximize the performance and sustainability of the business The core business and all levels BMs such as BM dimension components BM dimensions BM portfolio and Business Model Ecosystem BMES should all be considered for BMI The book addresses and documents a gap in BM research and the BM community but also proposes a generic definition and language of a BM and BMI layers The significance and importance of

this work is related to significant and unexplored possibilities that BMI offers today and can offer tomorrow When we thoroughly understand all levels dimensions and components of the business and its business models and we are able to communicate work and innovate with business models at all levels together then a next step in BM and BMI research and practice can be taken It is proposed that any BMs are related to seven dimensions value proposition user and or customer value chain functions internal competence network relations and value formulae It is further proposed that seven different levels of a BMI from the most detailed level the BM dimension component to the BM dimension BM BM portfolio business and the vertical and horizontal business model ecosystem layer and these can be objects to BMI Conceptually the Business Model Cube was formed using the seven dimensions which could be used both in a 2D and a 3D version *ECKM 2021 22nd European Conference on Knowledge Management* Dr Alexeis Garcia-Perez ,Professor Lyndon Simkin,2021-09-02 **Issues & Trends of Information Technology Management in Contemporary Organizations** Information Resources Management Association.
