Tits Up Sarah Thornton, 2024-05-07 An excellent new book You will not look at breasts in the same way again Economist An innovative investigation of the five strange worlds that worship women's chests After years of biopsies best selling author Sarah Thornton made the difficult decision to have a double mastectomy But after her reconstructive surgery she was perplexed What had she lost And gained An experienced sleuth she resolved to venture behind the scenes to uncover the social and cultural significance of breasts Riotous and galvanizing **Tits Up** excavates the diverse truths of mammary glands from the strip club to the operating room from the nation's oldest human milk bank to the fit rooms of bra designers Thornton draws insights from plastic surgeons lactation consultants body positive witches lingerie models and free the nipple activists to explore the status of breasts as emblems of femininity She examines how women's chests have become a billion dollar business as well as a stage for debates about race class gender and desire Everywhere she turns Thornton encounters chauvinist myths about this elemental body part that quietly justify deficits in women's bodily autonomy and endorse shortfalls in their political status Blending sociology reportage and personal narrative with refreshing optimism and wit Thornton has one overriding ambition to liberate breasts from centuries of patriarchal prejudice **Paperbound Books in**
