

MATH Relay RACES

How to play:

1. Split students into teams
(I have 4 teams with 4-5 students in each team)
2. Each team needs a pencil and a blank piece of paper
3. Set the timer - usually I set it for one minute, but you can change it up depending on the age of your students and what you are asking them to do.
4. Give your students their task. Some examples are: skip count by 2's, 5's, 10's, count backwards, start at ___ and count on, etc.
5. Students take turns writing the number and then pass the paper to the next person. Students are allowed to fix any errors that they notice and then write their answer.
6. When the time is up, count up how many points (correct, consecutive, answers) each team got.
