## **Latest Report On Mumbai Terror:**

Storming the World Stage Stephen Tankel, 2014-01-16 Lashkar e Taiba is among the most powerful militant groups in South Asia and increasingly viewed as a global terrorist threat on par with al Qaeda. Considered Pakistan's most powerful proxy against India, the group gained public prominence after its deadly ten-person suicide assault on Mumbai in November 2008. By the time the last Lashkar terrorist was dead after nearly 60 hours, it appeared the world was facing a new menace. Boasting transnational networks stretching across several continents, there has been serious debate since 9/11 of whether Lashkar is an al Qaeda affiliate. The deliberate targeting of Westerners and Jews during the Mumbai attacks raised questions about whether Lashkar was moving deeper into al Qaeda's orbit and perhaps on a trajectory to displace Osama bin Laden's network as the next major global jihadi threat. Lashkar's expansion has serious security implications for India, Pakistan, Europe, and the United States, and its activities threaten to damage US-Pakistan relations. Despite growing calls for action, Pakistan is yet to take any serious steps toward dismantling Lashkar for fear of drawing it further into the insurgency raging there and because of its continued utility against India. More than a militant outfit, Lashkar also controls a vast infrastructure that delivers necessary social services to the Pakistani populace, making it all the more difficult to dismantle. *Storming the World Stage* traces the evolution of Lashkar e Taiba over more than two decades to illustrate how the group grew so powerful and to assess the threat it poses to India, the West, and to Pakistan itself. The first English language book ever written about Lashkar, it draws on in-depth field research, including interviews with senior Lashkar leaders, rank-and-file members, and officials of the Pakistani security services, some of whom have helped nurture the group over the years. *Online Terrorist Propaganda, Recruitment, and Radicalization* John R. Vacca, 2019-07-30 *Online Terrorist Propaganda, Recruitment, and Radicalization* is the most complete treatment of the rapidly growing phenomenon of how terrorists' online presence is utilized for terrorism funding, communication, and recruitment purposes. The book offers an in-depth coverage of the history and development of online footprints to target new converts, broaden their messaging, and increase their influence. Chapters present the emergence of various groups, the advancement of terrorist groups' online presences, their utilization of video chat, room, and social media, and the current capability for propaganda training and recruitment. With contributions from leading experts in the field, including practitioners and terrorism researchers, the coverage moves from general factors to specific groups' practices as related to Islamic State of Iraq and the Levant (ISIL) and numerous other groups. Chapters also examine the lone wolf phenomenon as a part of the disturbing trend of self-radicalization. A functional, real-world approach is used regarding the classification of the means and methods by which an online presence is often utilized to promote and support acts of terrorism. *Online Terrorist Propaganda, Recruitment, and Radicalization* examines practical solutions in identifying the threat posed by terrorist propaganda and U.S. government efforts to counter it, with a particular focus on ISIS, the Dark Web, national and international measures to identify, thwart, and prosecute terrorist activities online. As such, it will be an invaluable
