quality of life require energy both in commercial and non commercial forms This handbook is intended as a reference for  
individuals who want a comprehensive overview of energy for agriculture many of whom are located in remote areas with  
limited library resources The purpose is to put energy for agriculture in perspective by presenting numerous national and  
regional examples of energy usage Since the early 1970s world petroleum prices have fluctuated from US 3 barrel to more  
than US 40 barrel in 1981 and then back to one third of the peak price today Consequently the rural sector depends heavily  
on non commercial energy sources Availability of such energy is highly site specific This handbook deals extensively with non  
commercial energy its sources the technologies for converting energy to more useful gaseous and liquid forms and its  
ultimate end uses Photographs tables line drawings and graphs are used extensively Over 600 references are listed along
