Medical Journal Impact Factor List:

Numerical Correlation between Impact Factor and Web Ranking of Electronic Scientific Journals Using Regression Analysis Giorgos Kouropoulos, Γιώργος Κουρόπουλος, 2017-12-15 The present study attempts to examine the numerical correlation between web ranking of electronic scientific journals and impact factor of these journals using the method of regression analysis Regression analysis allows the option of investigating and predicting the numerical relationship between website ranking of scientific journals on the World Wide Web and the value of impact factor of the journals A sample of 57 publishers with 6 272 scientific journals and 50 standalone scientific journals was analyzed during research procedure In this study two different indicators about websites classification on World Wide Web were examined separately for 57 publishers and 50 standalone journals Alexa rank and Statscrops rank The electronic databases through the internet constitute the main information resources of this study about the impact factors The general conclusion that arises is that the impact factor of electronic scientific journals illustrates a very strong positive correlation with classification of websites on the World Wide Web Furthermore it is concluded that the change of web ranking as a function of impact factor is governed by a Gaussian function or rational function with lower Pearson coefficient and presents non linearly correlation Even if there is very strong correlation between impact factor and web rank for electronic journals the prediction of impact factor from web rank is not possible and presents many divergences [Directory of Scholarly Journals in Turkey](#) Metin Kozak, Nazmi Kozak, 2017-03-07 Scholarly journals are the capillaries of the scientific world ensuring the circulation of knowledge Moreover scholarly journals guide and indicate the scientific development in an academic field of study or in a country Scholarly journals which transfer and spread scientific information are intended to properly fulfill their functions preventing the transfer of imperfect or incorrect information to the science world Significant issues are therefore inevitable in the characteristics of scientific studies in such disciplines and countries where the scholarly journals do not fulfill their functions properly This study encompasses all scholarly journals published in Turkey in all fields of science and other disciplines The reference questions in this study are grouped under three main categories the contact and publication information article evaluation and publishing information The number of journals in this present study totals 1 910

Bulletin of the Medical Library Association Medical Library Association, 2001 [Library Collection Development for Professional Programs: Trends and Best Practices](#) Holder, Sara, 2012-07-31 Collection development the process used by librarians to choose items for a particular library or section of a library can be time consuming and difficult due to the many factors that must be taken into consideration Library Collection Development for Professional Programs Trends and Best Practices addresses the challenging task of collection development in modern academic libraries which is largely learned on the job This publication contains practical advice and innovative strategies essential for current collection development librarians and future librarians seeking guidance in this complex position *Introduction to Health Sciences Librarianship*
