Improving Secondary Science Teaching John Parkinson, 2003-12-16 Improving Secondary Science Teaching has been written to help teachers both new and experienced reflect on their current practice and consider how to improve the effectiveness of their teaching The book examines each of the common teaching methods used in science in relation to pupils learning and provides guidance on management issues and procedures With underlying themes such as pupils interest in science and their motivation to learn how pupils learn science the type of science currently being taught in school and the value of educational research the book includes chapters on the improvement process planning for progression and continuity promoting pupils learning dealing with differences making use of information from assessment learning about the nature of science This timely book will be of interest to practising science teachers particularly those who are working to improve the management of science departments or their own teaching practice It will also be a valuable resource for science education researchers and students on higher degree courses in science education Partnership and Change

Leslie Nai-Kwai Lo, Allan Walker, 2004 There has been a dearth of books covering themes and issues related to university school partnerships and school development from an international perspective particularly providing examples on university school partnerships in the Asia Pacific region The book is broadly divided into two parts Part One focuses on university school partnership while Part Two highlights changes in school development The nature of different partnerships as well as the experiences of and research on school development in connection with individual strategies and organizational strategies are described The contributors are all renowned scholars school reformers and experienced practitioners from the United States Norway Sweden the United Kingdom Australia and Hong Kong Together they provide an international perspective on the issues related to school partnerships and development Register of Educational Research in the United Kingdom

National Foundation For Educational Research, 2005-11-30 The latest volume of The Register of Educational Research in the United Kingdom lists the major research projects being undertaken in Britain during the latter months of 1994 the whole of 1995 and 1996 and the early months of 1997 *The Times Index* , 2006 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Times educational supplement Scotland and the Times higher education supplement **Assessing Children's Mathematical Knowledge** Cooper, Barry, Dunne, Mairead, 1999-12-01 this work is highly relevant to the proliferation of accountability measures worldwide James Scheurich and Douglas Foley In many countries the lives of teachers and children are increasingly dominated by programmes of national testing of mathematics and other subjects In England the majority of the items in such tests have set mathematical tasks in every day situations such as shopping This requires children to make decisions about whether to use or not their own every day knowledge and experience in their problem solving Some children are likely to have a better feel for this game than others Assessing Children s Mathematical Knowledge draws on the analysis of national curriculum test data from more than 600

children of 10 11 and 13 14 years of age as well as in depth interviews with 250 of these as they attempt to solve test problems in order to explore the nature of the difficulties children experience with realistic items The book shows by comparing test and interview data that many children as a consequence of their confusion over the requirements of realistic test items fail in tests to demonstrate mathematical knowledge and understanding that they actually possess The book also explores whether this problem of invalid measurement is equally spread across children from different social backgrounds and across the sexes The book will be of interest to academics and teachers studying for advanced degrees in mathematics education sociology of education and educational assessment

Third validation compendium report Great Britain: National Audit Office, 2006-12-19 In 2004 the Government announced 110 Public Service Agreement PSA targets for 17 Departments covering the period 2005 08 PSA targets express the priority outcomes that Departments are seeking to achieve nationally and internationally and cover key aspects of the Government's social economic and environmental policy Large sums of public money are devoted to the programmes designed to deliver them This NAO report contains the detailed results of its examination of the data systems used by six government departments to monitor and report progress against their 2005 08 PSA targets covering a total of 65 data systems The six Departments are the Cabinet Office the Department for Culture Media and Sport the Department for Education and Skills the Department for the Environment Food and Rural Affairs the Ministry of Defence and HM Treasury Findings include that 75 per cent of the data systems used are broadly appropriate but less than half of these were fully fit for purpose Most required some action to strengthen measurement or reporting arrangements A companion volume HCP 127 I session 2006 07 ISBN 0102944040 is available separately which contains the NAO's summarised findings
