

Writing Prompts for Literary Analysis

Choose one of the following prompts and compose a five paragraph essay based on the summer reading novel.

1. One of the most revealing types of conflict occurs when a character's inner struggles are resolved at great personal price. Often, the character learns a lesson, but too late to help himself or another character. Explain how, in the work that you read, a character struggles but fails to learn a lesson in time, and thus, serves as an example for the reader. In your essay, focus on the conflict within the character. Be sure to include the price paid as part of the resolution and the lesson to be learned.
2. Often in literary works, authors choose a physical object which takes on a special significance in the work and becomes a symbol of something beyond itself. Show how, in the work that you read, the author uses a symbol to convey an important meaning. In your essay, focus on the symbol and what it symbolizes. Be sure to discuss how the author uses it to convey a message to readers. You may choose three important symbols from the novel, or you may choose to elaborate on one symbol in all three body paragraphs.
3. Authors often use descriptive details to develop a setting for several purposes. In an essay, explain how the setting of your book related to events from the plot, related to characters, or built suspense. You may write one body paragraph about each aspect of setting, or you may chose to elaborate on one particular aspect (plot, character, suspense) in all three body paragraphs.
4. What is the theme of the novel? In your introduction, state the theme of the novel. In your thesis, explain how the theme is developed. In your body paragraphs, give specific examples of scenes from the novel in which the author developed the theme.
5. Discuss the author's use of figurative language. Identify three examples of figurative language from the novel. Why did the author use these examples? What impact does the figurative language have on characterization, description of setting, mood, foreshadowing, theme, or the novel overall? In your essay, use a different example in each body paragraph. Be sure to explain the significance of each use of figurative language.

Hayn, Holly Sheppard Riesco, 2021-11-10 *Adolescent Realities Engaging Students in SEL through Young Adult Literature* offers a connection between young adult literatures and social and emotional learning. Students have many SEL needs and this book focuses on exploring SEL through the experiences of characters in contemporary books published in the last few years. Each chapter offers a specific focus in SEL a middle school and high school book for teens to read and a guided plan that can be adapted to fit the needs of educators, counselors, and parents. Developing and Validating Test Items Thomas M. Haladyna, Michael C. Rodriguez, 2013-07-18 Since test items are the building blocks of any test, learning how to develop and validate test items has always been critical to the teaching/learning process. As they grow in importance and use, testing programs increasingly supplement the use of selected response multiple choice items with constructed response formats. This trend is expected to continue. As a result, a new item writing book is needed, one that provides comprehensive coverage of both types of items and of the validity theory underlying them. This book is an outgrowth of the author's previous book *Developing and Validating Multiple Choice Test Items* 3e Haladyna 2004. That book achieved distinction as the leading source of guidance on creating and validating selected response test items. Like its predecessor, the content of this new book is based on both an extensive review of the literature and on its author's long experience in the testing field. It is very timely in this era of burgeoning testing programs, especially when these items are delivered in a computer-based environment. Key features include Comprehensive and Flexible. No other book so thoroughly covers the field of test item development and its various applications. Focus on Validity. Validity, the most important consideration in testing, is stressed throughout and is based on the Standards for Educational and Psychological Testing currently under revision by AERA, APA, and NCME. Illustrative Examples. The book presents various selected and constructed response formats and uses many examples to illustrate correct and incorrect ways of writing items. Strategies for training item writers and developing large numbers of items using algorithms and other item generating methods are also presented. Based on Theory and Research. A comprehensive review and synthesis of existing research runs throughout the book and complements the expertise of its authors.
