TIME 3 hours

INSTRUCTIONS TO CANDIDATES

Write your name, Centre number and candidate number in the spaces provided on the answer paper/answer booklet.

Answer **all** questions.

If a numerical answer cannot be given exactly, and the accuracy required is not specified in the question, then in the case of an angle it should be given to the nearest degree, and in other cases it should be given correct to 2 significant figures.

INFORMATION FOR CANDIDATES

The number of marks is given in brackets [] at the end of each question or part question.

The total number of marks for this paper is 120.

The use of a scientific calculator is expected, where appropriate.

You are reminded of the need for clear presentation in your answers.

This question paper consists of 6 printed pages and 2 blank pages.

From Testing to Assessment Clifford Hill, Kate Parry, 2014-09-19 From Testing to Assessment English as an International Language provides a critical review of conventional and alternative approaches to the assessment of English literacy skills in various parts of the world It presents empirical studies conducted in three major settings in countries such as Japan and Brazil where English functions as the language of international commerce in multilingual countries such as Nigeria and Zimbabwe where English is the national language of education and government and in such countries as Canada the United Kingdom and the United States where English is the dominant language The book opens with a discussion of language assessment in relation to debates about the nature of literacy it concludes with a discussion of policy implications which is grounded in literacy theory as well as in practical constraints such as available human and material resources

Mathematics Today , 1996 Exam Papers for Gce "o" Level Additional Maths , *School Wars* Melissa Benn, 2012-11-13 School Wars tells the story of the struggle for Britain's education system Established during the 1960s and based on the progressive ideal of good schools for all the comprehensive system has over the past decades come under

sustained attack from successive governments Now with the growing inequalities of our current system the damaging impact of spending cuts the rise of free schools and the growth of the private sector in education the values embodied in the comprehensive ideal are under threat The situation is expertly anatomized by journalist and educational campaigner Melissa Benn who explores the dangerous example of US education reform where privatization punitive accountability and the rise of charter schools have intensified social economic and ethnic divisions The policies of successive British governments have been muddled and confused but one thing is clear that the relentless application of market principles signals a fundamental shift from the ideal of quality education as a public good to education as market controlled commodity Benn ends by outlining some key principles for restoring strong educational values within a fair non selective public education system
