Matt Drudge And Report:

Reporting from Washington Donald A. Ritchie, 2005-03-15 Donald Ritchie offers a vibrant chronicle of news coverage in our nation's capital from the early days of radio and print reporting and the heyday of the wire services to the brave new world of the Internet. Beginning with 1932 when a newly elected FDR energized the sleepy capital, Ritchie highlights the dramatic changes in journalism that have occurred in the last seven decades. We meet legendary columnists including Walter Lippmann, Joseph Alsop, and Drew Pearson, as well as the great investigative reporters from Paul Y. Anderson to the two green Washington Post reporters who launched the political story of the decade: Woodward and Bernstein. We read of the rise of radio news, fought tooth and nail by the print barons, and of such pioneers as Edward R. Murrow, H. V. Kaltenborn, and Elmer Davis. Ritchie also offers a vivid history of TV news from the early days of Meet the Press to Huntley and Brinkley and Walter Cronkite to the cable revolution led by C-SPAN and CNN. In addition, he compares political news on the Internet to the alternative press of the 60s and 70s, describes how black reporters slowly broke into the white press corps, helped mightily by FDR's White House, discusses path-breaking woman reporters such as Sarah McClendon and Helen Thomas, and much more. From Walter Winchell to Matt Drudge, the people who cover Washington politics are among the most colorful and influential in American news. Reporting from Washington offers an unforgettable portrait of these figures as well as of the dramatic changes in American journalism in the twentieth century.

Covering American Politics in the 21st Century Lee Banville, 2016-12-12 This encyclopedia provides a real world guide to American political journalism and news coverage in the 21st century, from the most influential media organizations and pundits to the controversies and practices shaping modern day political journalism. Over the last 20 years, political campaigns and the media that cover them have been fundamentally altered by a mix of technology and money. This timely work surveys the legal, financial, and technological changes that have swept through the political process, putting those changes in context to help readers appreciate how they affect what the public learns and doesn't learn about the candidates and lawmakers at the local, state, and federal levels. The encyclopedia offers a critical examination of a broad range of topics, organized in a narrative A to Z format. Written by journalists and political experts, the two volumes cover the major issues, organizations, and trends affecting both politics and the coverage of political campaigns. Some 200 entries treat everything from news organizations, think tanks, and significant individuals to questions concerning money, advertising, and campaign tactics. Objective, unbiased, and comprehensive, the encyclopedia is an unequalled resource for anyone seeking to understand American political journalism and news coverage in the 21st century.

Free Expression in the Age of the Internet Jeremy Lipschultz, 2018-03-08 In Free Expression in the Age of the Internet, Jeremy Lipschultz investigates the Internet and its potential for profound change, analyzing the use of its technology from social, political, and economic perspectives.
