Management Accounting Professor Carsten Berkau, 2020-04-20 Management Accounting is written for students in international Business Management study programs. It covers the widely applied syllabus of Cost Accounting and Management Accounting at universities on bachelor's and master's level. The book is based on more than 20 years academic teaching experience in Germany and at international universities in South Africa, Malaysia, China, the Netherlands, and South Korea. In this text book, the application of methods and instruments comes first. Management Accounting follows a case study based approach. All cases are taken from previous exam papers and explained in detail. The text book starts with a case study of a manufacturing company and compares Financial Accounting to Management Accounting. It covers two points of view: 1. a General Management view with aspects of business planning, cost-volume-profit analysis, degree of operating leverage, mergers and cross border acquisitions, and risk valuation; 2. a Cost Accounting view with Management Accounting systems, flexible budgeting, cost allocations, performance measurement and monitoring, reporting, calculation, manufacturing accounting, job order and process costing, activity based costing, and multi-level contribution margin Accounting. On the UVK website, numerous exam tasks and complete solutions thereto are available in English.

Accounting: An Introduction, 6/E Peter Atrill, Eddie McLaney, David Harvey, 2014-08-28 Accounting: An introduction by Atrill provides a clear and approachable introduction to accounting and finance for those seeking to understand the main concepts and their practical application to good decision making.

Hospitality Management Accounting, 6e Student Workbook Michael M. Coltman, 1998 CRUCIAL ACCOUNTING SKILLS FOR THE HOSPITALITY PROFESSIONAL. In the fast growing and increasingly competitive hospitality industry, every business is under extreme pressure to maximize revenue and minimize costs simply to maintain existing profit levels. Hospitality Management Accounting, Seventh Edition, gives students a firm grounding in the fundamental concepts and analytical techniques they will need as professionals to take direct control of an accounting system and evaluate the effectiveness of current and past operations. Filled with case studies, expanded exercises and problem sections, and alternative solution sets that provide multiple problem solving approaches, this updated new edition is the only text in the field that covers credit card receivables. It features an extensive review of accounting systems and a special section on the use of computers in the hospitality industry. Important topics covered in this text include: Understanding, analyzing, and interpreting financial statements; Ratio analysis and internal control; The bottom up approach to pricing; Cost management and the cost-volume-profit approach to decisions; Operations budgeting and cash budgeting; Statement of cash flows and working capital. Hospitality Management Accounting, Seventh Edition, equips hospitality management and culinary students with the skills they need to take command of one of the most crucial aspects of the management of any hospitality business.
