Shadruchulu Deepthi Tanikella, Mounica Tata, 2025-05-19 Memory has a flavor In Shadruchulu Deepthi Tanikella distills a lifetime into six exquisite tales each infused with one of the tastes of life sweet sour salty bitter pungent and spicy Here food is not mere sustenance but story A grandmother's creamy payasam links one generation to the next just as a jar of gooseberry preserve offers hope to parents staggered by loss With each flavor a new facet of memory is laid bare joy and longing laughter and loss all served with the warmth of a homemade meal At the end of every story a recipe awaits part epilogue part inheritance tying the act of cooking directly into each tale's emotional arc The result is a book that aches with nostalgia even as it celebrates survival It is a portrait of family life in which every taste tells a story and each story leaves an aftertaste of longing and quiet hope

Gruballergy - The Ultimate Source of Veganism Nimisha Chawak, 2020-12-25 My tryst with cooking began when we started to unveil concealed facts about food allergies carried in by our son Taken aback by the shock and restrictions that his diet had and also beginning to worry about his wholesome nutrition I started shredding the internet for different recipe recourse My taste and likes also had a funny curtailment having been brought up in a traditional Marathi household with a vegetarian diet I have a profound love for that food But I had to halt down on my favorite dishes in numerous instances as they did not fit in my son's diet restrictions There are quite some blogs channels books that I follow which cite Vegan cooking But somehow they just fail to connect There is a whole different universe between cooking vegan options by utilizing substitutes and cooking for a child with food allergies Many times the vegan substitutes just don't comply For example we cannot use vegan egg nog as a substitute for eggs as they also are derived from nuts cashew nuts There were too many restrictions imposed which we fail to understand fully in the concept of Veganism Cooking is certainly a combination of art and science Indian food is a synthesis amalgamation of science and art that formulates the food incredibly delicious and flavorful This book is your source of quick simple everyday recipes to exotic desserts With traditional Indian recipes passed down from generation to generation tweaked and self tested by a mother to satisfy her son's severe food allergies
