Fess, 1990

Accounting Principles Jerry J. Weygandt, Paul D. Kimmel, Donald E. Kieso, 2010-12-20 Weygandt's Accounting Principles introduces challenging accounting concepts with examples that are familiar to accountants The new edition has been updated with the latest IFRS IASB standards Additional coverage is included on foreign currency translation and LCM More discussions focus on risk management as a result of the financial crisis The examples also emphasize current examples in order to help accountants make the connection to their everyday lives **Business Ethics, 2/e** A.C. Fernando, 2009 Business Ethics An Indian Perspective provides a comprehensive coverage of the theories of business ethics and emphasizes the importance of ethical principles in overcoming moral dilemmas in the business world Using a large number of India centric case studies and examples this book helps readers develop the reasoning and analytical skills needed to apply ethical concepts to business *Managerial Accounting* Irvin N. Gleim, Terry L. Campbell, 1988 **Accounting, the Social and the Political** Norman B. Macintosh, Trevor Hopper, 2005-09-30 This book contains 35 carefully selected and abridged versions of scholarly financial and managerial research articles by world class researchers ranging across a wide spectrum of

the social political and philosophical sides of financial and managerial accounting information and practices to focus on accounting's wider role and impact on organizations and society at large. While each article was substantially culled in order to highlight its central findings and its unique approach, care was exercised to maintain the integrity of the authors' work. The result is a collection of readily accessible research including classics and seminal articles, a selection of more contemporary articles and recent articles that go beyond the conventional. Thus the book pushes the boundaries beyond that of conventional accounting thought and research. This anthology will be of interest especially to graduate students since it provides a broad sampling of influential research studies presented in a highly accessible format. It should also be of vital interest to sophisticated practitioners who are concerned about the current state of the accounting world in the wake of the recent cascade of so-called accounting scandals. The hope also is to help bridge the gap between the practitioners and the scholarly researchers.
