examine the information we rely on today With data playing an increasingly central role in decision making the future depends on our ability to ensure that numbers are used to dismantle barriers not reinforce them Elton Thomas who is legally blind brings a unique perspective to this work as a long time advocate for the disability community With years of experience working at the Lighthouse for the Blind to improve employment for individuals who are blind and serving as Vice President of the Board of Directors at Paraquad a leading independent living center in St Louis Missouri Thomas is committed to creating opportunities for marginalized communities Combining his expertise as a Lean Six Sigma Master Black Belt and an MBA graduate from the University of Missouri St Louis Thomas presents a compelling argument for how data has shaped societal norms and offers insights into how we can use statistics to build a more just and equitable future
