The Right to Research Kate Reed, Marcia C. Schenck, 2023-01-15 Refugees and displaced people rarely figure as historical actors and almost never as historical narrators We often assume a person residing in a refugee camp lacking funding training social networks and other material resources that enable the research and writing of academic history cannot be a historian because a historian cannot be a person residing in a refugee camp The Right to Research disrupts this tautology by featuring nine works by refugee and host community researchers from across Africa Europe and the Middle East Identifying the intrinsic challenges of making space for diverse voices within a research framework and infrastructure that is inherently unequal this edited volume offers a critical reflection on what history means who narrates it and what happens when those long excluded from authorship bring their knowledge and perspectives to bear Chapters address topics such as education in Kakuma Refugee Camp the political power of hip hop in Rwanda women migrants to Yemen and the development of photojournalism in Kurdistan Exploring what it means to become a researcher The Right to Research understands historical scholarship as an ongoing conversation one in which we all have a right to participate **The Education Alibi** Elizabeth Cooper, Erdmute Alber, Wandia Njoya, 2025-10-22 Education is generally promoted as the key to the future of Africa in global development discourses about the continent Education's official story in Africa continues to be one of innocence and public good yet since colonial times education has constituted an area of intense contestation The Education Alibi asks if it is possible that while claiming to be doing one thing education has also been doing another in African communities The concept of the alibi shines an interrogative light on institutions and actors use of education to divert scrutiny from other effects Through ethnographic research and critical analysis across the continent this volume focuses on people's lived experiences to demonstrate how contemporary education systems in fact deepen economic racialized gendered urban rural linguistic religious and other intranational and international inequalities *The African Book Publishing Record*, 2007 Natural Science Education, Indigenous Knowledge, and Sustainable Development in Rural and Urban Schools in Kenya Darren M. O'Hern, Yoshiko Nozaki, 2014-05-05 Through a multi-sited qualitative study of three Kenyan secondary schools in rural Taita Hills and urban Nairobi the volume explores the ways the dichotomy between Western and indigenous knowledge operates in Kenyan education In particular it examines views on natural sciences expressed by the students teachers the state's curricula documents and schools exam-oriented pedagogical approaches O'Hern and Nozaki question state and local education policies and practices as they relate to natural science subjects such as agriculture biology and geography and their dismissal of indigenous knowledge about environment nature and sustainable development They suggest the need to develop critical postcolonial curriculum policies and practices of science education to overcome knowledge-oriented binaries emphasize

sustainable development and address the problems of inequality the center and periphery divide and social cultural and environmental injustices in Kenya and by implication elsewhere In an era of environmental crisis and devastation education that supports sustainability and survival of our planet is needed Within a broader sociopolitical context of post colonialism and globalization this volume points out possibilities and challenges to achieve such an education The authors propose a critical postcolonial approach that acknowledges the contextual and situational production of all knowledge and that de dichotomizes indigenous from Western scientific knowledge Eric Rico Gutstein Professor Curriculum and Instruction University of Illinois at Chicago USA **Kenya National Assembly Official Record (Hansard)** ,1994-10-04 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of Kenya the House of Representatives of the Government of Kenya and the National Assembly of the Republic of Kenya **Ethnographic Contributions to the Study of Endangered Languages** Tania Granadillo,Heidi A. Orcutt-Gachiri,2022-08-23 It is a feature of the twenty first century that world languages are displacing local languages at an alarming rate transforming social relations and complicating cultural transmission in the process This language shift the gradual abandonment of minority languages in favor of national or international languages is often in response to inequalities in power signaling a pressure to conform to the political and economic structures represented by the newly dominant languages In its most extreme form language shift can result in language death and thus the permanent loss of traditional knowledge and lifeways To combat this indigenous and scholarly communities around the world have undertaken various efforts from archiving and lexicography to the creation of educational and cultural programs What works in one community however may not work in another Indeed while the causes of language endangerment may be familiar the responses to it depend on highly specific local conditions and opportunities In keeping with this premise the editors of this volume insist that to understand language endangerment researchers and communities must come to understand what is happening to the speakers not just what is happening to the language The eleven case studies assembled here strive to fill a gap in the study of endangered languages by providing much needed sociohistorical and ethnographic context and thus connecting specific language phenomena to larger national and international issues The goal is to provide theoretical and methodological tools for researchers and organizers to best address the specific needs of communities facing language endangerment The case studies here span regions as diverse as Kenya Siberia Papua New Guinea Mexico Venezuela the United States and Germany The volume includes a foreword by linguistic anthropologist Jane Hill and an afterword by poet and linguist Ofelia Zepeda **Zoo** Charles Chanchori,2018 Visit the zoo to discover the totally wild animal exhibits and people that work there Explore more than 50 flaps to find out about some of the world s most amazing animals and how the zookeepers care for them Learning, Marginalization, and Improving the Quality of Education in Low-income Countries Daniel A. Wagner,Nathan M. Castillo,SuzanneGrant Lewis,2022-02-21 Improving learning evidence and outcomes for those most in need in developing countries is at the heart of

the United Nations Sustainable Development Goal on Education SDG4 This timely volume brings together contributions on current empirical research and analysis of emerging trends that focus on improving the quality of education through better policy and practice particularly for those who need improved learning at the bottom of the pyramid LBOP This volume brings together academic research experts government officials and field based practitioners National and global experts present multiple broad thematic papers ranging from the effects of migration and improving teaching to the potential of educational technologies and better metrics for understanding and financing education In addition local experts practitioners and policymakers describe their own work on LBOP issues being undertaken in Kenya India Mexico and Ivory Coast The contributors argue persuasively that learning equity is a moral imperative but also one that will have educational economic and social impacts They further outline how achieving SDG4 will take renewed and persistent effort by stakeholders to use better measurement tools to promote learning achievement among poor and marginalized children This volume builds on the second international conference on Learning at the Bottom of the Pyramid LBOP2 It will be an indispensable resource for policymakers researchers and government thinktanks and local experts as well as any readers interested in the implementation of learning equity across the globe The first volume Learning at the Bottom of the Pyramid LBOP1 may be obtained at <http://www.iiep.unesco.org/en/learning-bottom-pyramid> 4608 African Journal of Education Studies ,2006

Burning Ambition Elizabeth Cooper,2022-07-19 Burning Ambition explores how young people learn to understand and influence the workings of power and justice in their society Since 2008 hundreds of secondary schools across Kenya have been targeted with fire by their students Through an in depth study of Kenyan secondary students use of arson Elizabeth Cooper asks why With insightful ethnographic analysis she shows that these young students deploy arson as moral punishment for perceived injustices and arson proves an effective tactic in their politics from below Drawing from years of research and a rich array of sources Cooper accounts for how school fires stoke a national conversation about the limited means for ordinary Kenyans and especially youth to peacefully influence the governance of their own lives Further Cooper argues that Kenyan students actions challenge the existing complacency with the globalized agenda of education for all demonstrating that submissive despondency is not the only possible response to the failed promises of education to transform material and social inequalities **Parents** ,2005 *Challenges of Implementing Free Primary Education in Kenya* ,2005
