Advancing DEI and Creating Inclusive Environments in the Online Space McCune, Nina M., 2022-06-24 Diversity and inclusion are vital practices in today's educational environments both online and in person. Implementing inclusive practices to support student development is critical to ensure they receive the best possible education and feel comfortable in the classroom. With the current shift to online teaching and learning, it is especially important to consider how diversity and equity are promoted in these new technological spaces. *Advancing DEI and Creating Inclusive Environments in the Online Space* considers the process of creating a caring and inclusive teaching and learning environment in online postsecondary institutions by addressing key issues such as creating sites of collaboration and engagement, ensuring and proactively delivering resources and student support, and developing hallmarks of inclusivity to support online course design and faculty development. Covering a range of topics such as strategic planning, social change, and assessment, this reference work is ideal for administrators, higher education faculty, researchers, scholars, practitioners, academicians, instructors, and students.

In this timely and necessary book Monirul Azam examines the attempts of several developing countries to walk this fine line. He evaluates the experiences of Brazil, China, India, and South Africa for lessons to guide Bangladesh and developing nations everywhere. Azam's legal expertise, concern for public welfare, and compelling grasp of principal case studies make *Intellectual Property and Public Health in the Developing World* a definitive work. The developing world is striving to meet the requirements of the World Trade Organization's TRIPS Agreement on intellectual property. This book sets out with lucidity and insight the background of the TRIPS Agreement and its implications for pharmaceutical patents, the consequences for developing countries, and the efforts of certain representative nations to comply with international stipulations while still maintaining local industry and public health. Azam then brings the weight of this research to bear on the particular case of Bangladesh, offering a number of specific policy recommendations for the Bangladeshi government and for governments the world over. *Intellectual Property and Public Health in the Developing World* is a must read for public policy makers, academics, and students, non-governmental organizations, and readers everywhere who are interested in making sure that developing nations meet the health care needs of their people.
