Congress. House. Committee on the Judiciary, 2009 **Speaking Truth to Power** Dean A. Dabney, Richard Tewksbury, 2016-08-02 Domestic drug enforcement takes many forms from the rural patrol officer who happens upon a small scale mobile shake and bake methamphetamine lab during a routine traffic stop to the city narcotics detective who initiates a low level buy bust operation that nets a few hits of crack cocaine on the street corner to the local state and federal agents working in multiagency task forces that coordinate a sting operation that nets thousands of kilos of near pure cocaine being transported by tractor trailer Regardless of the form there is a high probability that these authorities have exploited access to known offenders and exerted pressure on those individuals to gather inside information on illicit drug sales These confidential informants provide intelligence on the inner workings of drug operations in exchange for leniency or remuneration providing a relatively cheap source of intelligence that fuels much of the ongoing war on drugs In other instances law enforcement authorities will reach out to members of the criminal underworld who are willing to provide valuable intelligence in exchange for money Despite the central role of informants in contemporary police operations little is known about the shadowy relationships among law enforcement snitches and offenders Based on ethnographic fieldwork in the narcotics homicide and street level vice operations in two major metropolitan police departments *Speaking Truth to Power* takes readers to the front lines of the war on drugs to unravel this complex web of information exchange **Confidential Informants** Jon Shane, 2015-09-19 While confidential informants CI s can play a crucial role in police investigations they also have the potential to cause great harm if they are dishonest The process by which police agencies qualify a CI to work and the strength of agency policy may be the source of the problem This Brief examines the integrity problem involving CIs in police

operations within the United States provides an overview of pitfalls and problems related to veracity and informant integrity including the difficulties in detecting when a CI is lying and compares the provisions of actual published police policy to the model CI policy published by the International Association of Chiefs of Police IACP The analysis shows a wide divergence between actual police policy and the national standard promulgated by the IACP The Brief provides policy recommendations for improving use of CIs that can potentially reduce or eliminate integrity problems that can lead to organizational accidents such as wrongful arrests and convictions injuries or deaths Some Courts have issued measures to ensure that information received from CIs is reliable by examining sworn testimony and documents related to their work However as this Brief explores this judicial effort arises only after a police operation has taken place and the use of force even deadly force has already been employed The author proposes integrity testing beforehand which would allow police to have a greater understanding of a CI s motivation ability and veracity when conducting law enforcement operations In addition there are aspects of police policy that can enhance CI management such as training supervision and entrapment that can further guard against integrity problems Although integrity testing is not flawless it does interpose an additional step in the CI management process that can help guard against wrongful conviction and perjury that harms the judicial process
