Co-teaching and co-research in contexts of inequality Phindile Zifikile Shangase, Daniela Gachago, Eunice Ndeti Ivala, 2023-05-09 There has been a recent surge of interest in the concept of co teaching and co research across institutions of HE locally and globally as a response to limited international mobility due to COVID 19 We see co teaching and co research as teaching and research that connects educators and learners across different institutions and different contexts be it across South Africa Africa or the world Co teaching and co research is linked in this book to the term networked learning following the Networked Learning Editorial Collective s emphasis on relationships and collaboration rather than

technology and foregrounding our strong commitment to social justice Our collective experiences have shown that co teaching and co research are not easy endeavours especially when they involve differently positioned and differently resourced contexts students and academics While these collaborations are enriching and exciting they need careful support preparation and time for sustained relationship building topics that we find are not necessarily discussed in the literature around co teaching and co research This book is an attempt towards closing this gap in knowledge by providing a range of chapters documenting personal experiences of academics and practitioners engaging in co teaching and co research across the African continent and beyond facilitated by various networked learning tools and technologies Framed by a spirit of sharing and connection the book provides insights into the benefits and challenges of such collaborations affordances of technologies to bridge unequal divides emerging practices of continental collaboration and beyond Additionally the book provides an unusually honest and nuanced view on co teaching and co research across contexts of inequalities foregrounding relationship and community building rather than technology and emphasising the importance of sustained connection and reflection in these collaborations Applying a wide range of critical theoretical frameworks these evidence based but also reflective and reflexive contributions are a unique and important reminder that behind and through our screens we connect as humans who yearn to learn from each other but also need to learn how to learn from each other when we do not share the same world views *Implementing Interactive Learning Strategies in Higher Education* Railean, Elena Aurel, 2024-08-01

Schmidt, Innocent Pikirayi, 2016-06-17 This volume provides new insights into the distinctive contributions that community archaeology and heritage make to the decolonization of archaeological practice Using innovative approaches the contributors explore important initiatives which have protected and revitalized local heritage initiatives that involved archaeologists as co producers rather than leaders These case studies underline the need completely reshape archaeological practice engaging local and indigenous communities in regular dialogue and recognizing their distinctive needs in order to break away from the top down power relationships that have previously characterized archaeology in Africa *Community Archaeology and Heritage in Africa* reflects a determined effort to change how archaeology is taught to future generations Through community based participatory approaches archaeologists and heritage professionals

can benefit from shared resources and local knowledge and by sharing decision making with members of local communities archaeological inquiry can enhance their way of life ameliorate their human rights concerns and meet their daily needs to build better futures Exchanging traditional power structures for research design and implementation the examples outlined in this volume demonstrate the discipline s exciting capacity to move forward to achieve its potential as a broader more accessible and more inclusive field

Women and Climate Change in Bangladesh Margaret Alston,2015-02-11 Bangladesh is by no means a high emitter of carbon but it is nevertheless one of the countries most critically affected There is a significant risk of damage to lives and

livelihoods due to climate change in the form of cyclones flooding and storm surges and slow onset impacts such as droughts sea level rises and river basin erosion Moreover Bangladeshis are especially vulnerable as a high proportion of people live in extreme poverty This book assesses the impact of climate change in Bangladesh and presents the findings of a three year in depth study undertaken at village level in different districts of the country It examines national policies contrasting them with what is actually happening at village level It outlines the impact of climate change on livelihood strategies and health and focuses particularly on the impact on gender relations showing that although women have a significant role to play in helping communities cope with the effects of climate change cultural customs and practices often work against this The book argues for and puts forward policy proposals for recognising women s active contribution and supporting gender equality as a critical strategy in global adaptation to climate challenges *International Perspectives on Family Caregiving* Selwyn Stanley, 2025-04-30 Meeting the need for a text for the academic community which recognises informal caregiving experiences this is compelling reading for scholars of social work health and social care medical sociology nursing psychology and counselling and allied disciplines *Suid-Afrikaanse Hofverslae* ,2014 **Social Science Abstracts** ,1930
