## **Lab Manual Introductory Plant Biology:**

*Laboratory Manual to accompany Stern's Introductory Plant Biology* James Bidlack, Kingsley Stern, 2007-03-30 This laboratory manual assumes no previous knowledge of the biological sciences on the part of the student. It is designed for use in a one semester or one quarter introductory course in plant biology and shorter introductory botany courses open to both nonmajors and majors. Both the principles of biology and the scientific method are introduced using plants as illustrations. The exercises demonstrate the underlying unity of all living organisms at the cellular level. The manual is designed so that students can work more or less independently. Instructors are free to require different drawings or other assignments and may also omit some of those suggested within each exercise. Students are encouraged to read the laboratory exercise before coming to class. Laboratory preparation quizzes are provided at the end of each exercise. Answers to the laboratory preparation quizzes are discernible within the particular exercises and should not require checking other sources. Each exercise includes suggested learning goals and exercise review questions. Answers to the lab manual exercise review questions can be found on the Online Learning Center that accompanies the Eleventh Edition textbook. **LM STERNS**

*Combo: Loose Leaf Version of Stern's Introductory Plant Biology w/ Lab Manual* Shelley Jansky, James Bidlack, Kingsley Stern, 2013-04-09 *Stern's Introductory Plant Biology with Lab Manual* James Bidlack, Shelley Jansky, Kingsley Stern, 2012-05-08 This introductory text assumes little prior scientific knowledge on the part of the student. It includes sufficient information for some shorter introductory botany courses open to both majors and nonmajors and is arranged so that certain sections can be omitted without disrupting the overall continuity of the course. Stern emphasizes current interests while presenting basic botanical principles. This latest edition incorporates measurable learning outcomes and updated readings. Students will be introduced to the new classification of plants and plant related species, integration of biotechnology into several chapters, and inclusion of new text boxes addressing the areas of ecology, evolution, and molecular

biology New photos have replaced older pictures or have been added also With this edition we introduce McGraw Hill Connect Botany a web based assignment and assessment platform that gives students the means to better connect with their coursework with their instructors and with the important concepts that they will need to know for success now and in the future With McGraw Hill Connect Botany instructors can deliver interactive assignments quizzes and tests online Nearly all the questions from the text are presented in an autogradable format and tied to the text's learning objectives
