Introduction

The dynamic societal issues and priorities present new challenges to law enforcement agencies. Enhanced police visibility is necessary to ensure a reduction in crime rates, drug use, and traffic-related fatalities. This is a systematic strategy that allows law enforcement agencies to utilize research, analysis, and thorough assessments in the process of addressing matters which concern the police departments.

Moreover, community policing must also be enhanced. This involves community partnerships, which entail creating an environment of trust which allows the community members and the police to share information freely and openly (Williams, 2015). Organizational management strategies, policies, and structures should also be transformed to facilitate community policing effectively.

Major Impediment to Implementing Proactive Policing Style

The proactive policing approach is associated with several challenges. The biggest impediment involves recruitment, hiring, and retention of officers in every police department. To be effective, all

Law enforcement officers serve the public by performing a broad range of activities that range from passive surveillance and investigative work to the dynamic arrest situations that can quickly become violent and life threatening Our justice system permits the use of force only when necessary and limits its use to specifically defined situations Thus an officer s survival depends upon his her ability to quickly assess a situation and respond with an appropriate level of force With legal guidelines in place governing the use of force it may appear to be a simple process for an officer to determine the appropriate response for a particular situation but it is not The decision making environment for law enforcement officers commonly includes a component that has tremendous impact on the outcome of the factor of stress Critical decisions often have to be made quickly to save a life or prevent further harm Clear rational thinking in a life threatening time urgent situation is vital to officer survival All too often however the rational thought process must compete against the rush of adrenaline and a professional desire to apprehend the suspect sometimes at too high a cost
