Great Britain, 1913      **Nouveau recueil général de traités et autres actes relatifs aux rapports de droit international** Georg Friedrich Martens, Heinrich Triepel, 1912      **AIM Reports**, 2005      Big Data Analytics and Its Impact on Basin Water Agreements and International Water Law Imad Antoine Ibrahim, Rafael Dean Brown, Jon Truby, 2022-01-17

Big Data Analytics and Its Impact on Basin Water Agreements and International Water Law represents the state of the art when it comes to the use of disruptive technologies in the transboundary water context and its impact on international water law. Indeed the case study provided in this manuscript which represents the most relevant example where big data is being used in the transboundary water context highlights this reality. The readers will understand current and also future potential impact of big data on water resources in the general context of disruptive technologies.

**Hertslet's Commercial Treaties** Great Britain. Foreign Office, 1913      **The Ashgate Research Companion to Regionalisms** J. Andrew Grant, 2016-03-23

EU studies increasingly recognize the salience of new regional insights. Hence this collection of original essays provides a broad overview of regionalism together with detailed analyses on the construction activities and implications of both established and emerging examples of formal political and economic organizations as well as informal regional entities and networks. Aimed at scholars and students interested in the continuing growth of regionalism, *The Ashgate Research Companion to Regionalisms* is a key resource to understanding the major debates in the field. Organized into three main sections, this volume deals with a wide range of issues covering the following important research areas: Section one covers theoretical and methodological approaches to the study of established and formal regionalism, emerging and informal regionalism, inter-regionalism and levels of regionalism. Section two provides detailed case studies of established and formal regionalisms: EU, NAFTA, ASEAN, SAARC, OAS, MERCOSUR, AU, ECOWAS and SADC. Section three offers case studies that investigate emerging and informal regionalisms in Oceania, the Arab League, BRICSAM and the Commonwealth, as well as thought provoking chapters on micro-regional processes evident in spatial development initiatives, transnational gangs, transfrontier conservation areas and the migration conflict nexus in natural resource sectors. With the study of regionalism becoming an increasingly important part of politics, international relations, development and global studies courses, this comprehensive volume is a valuable addition for classroom use.

,2006      **In the Era of Shepstone** Cornelis Janse Uys,1933      *Political Ecology of African Peace Parks* Maano Ramutsindela,2025-11-06 Peace parks are imagined landscapes and seascapes created through narratives and science This book uses a political ecology framework to explore the colonial and uneven geography of peace parks in post independence Africa It illuminates the regional milieus impacting these parks and the consequent socioecological and political dynamics This book curates a space for multiple voices and knowledges of peace parks and highlights the limits to truth claims It presents peace parks as a milieu that enables the assemblage of underexamined concepts in political ecology The book advances four arguments The first is that critical scholarship on the peace parks initiative in Africa and elsewhere has been crowded out by a dominant and well sponsored narrative of these parks Second the ideology of peace parks capitalises on societal aspirations and challenges to wage the war of the mind Third peace parks are a geographical expression of coloniality The fourth argument is that the regional dynamics account for the uneven geography of peace parks in Africa These dynamics reveal the symbiotic relations between politics and ecology The founding of peace parks animates resource politics but also depoliticises the resource question Situated in the ongoing debates on protecting the planet in an unequal world and the pathways for a just society this book will be of interest to researchers of African studies political ecology human geography sociology environmental studies and political science      Contemporary South Africa and the Political Economy of Regional Development Methembe Mdlalose,Isaac Khambule,Nene Ernest Khalema,2025-02-21 South Africa s struggle in balancing its domestic needs while playing a dynamic developmental role in the African region and global context exposes a complex web of relations shaped by its geostrategic location on the continent and the world and the staggering legacies of colonialism and apartheid As such understanding the complexities of the global economy and of South Africa s place in it is of great importance This book builds upon an existing body of literature which has demonstrated that while the post apartheid South African state has recast its nation building goals with advances having been made notably in the area of a stellar post apartheid constitution policy directives and democratic political integration economic integration and policy implementation presents a projection of captured interests where big business concerns are entrenched in the post apartheid state s apparent neo liberal turn The main focus of the book is to contextualise issues relating to three main trends in global discourses on development which are significant for South Africa and indeed for the study of the political economy of regional development in the country from the prism of South Africa as a global capitalist state These trends include the impact of globalisation regionalisation and the marginalisation of South Africa and indeed the African continent in the global economy thus unpacking the possible role that South Africa might play in regional development This volume will be a valuable resource to academics researchers and students in the fields of regional studies economics and political theory as well as policymakers planners and local economic development practitioners      **General Index to the Fourth Ten Volumes of the Journal of the Royal Geographical Society** Hume Greenfield, Henry Walter Bates,1881      *Rhodesiana*

,1975     **The Changing Face of Land and Conservation in Post-colonial Africa** George Barrett, Shirley Brooks, Jenny Josefsson, Ngobile Zulu, 2016-03-22 The year 2013 marked the 100th anniversary of the 1913 Land Act in South Africa which legalised the violent dispossession and alienation of the African majority from the land It is common cause that the alienation of land for conservation purposes introduced to Africa under colonial rule has continued more or less uninterrupted until today However while nature conservation practices inevitably raise challenging questions relating to land and land use there has thus far been little concentrated effort to bring together scholars working on the land question particularly around issues of land tenure with those whose work focuses on questions of nature construction and the social impacts of conservation in an African context Compiled from research presented at a ground breaking interdisciplinary conference held at Rhodes University in Grahamstown South Africa in 2012 the chapters in this book made their first appearance in a special issue of the Journal of Contemporary African Studies JCAS in July 2013 The book brings critical interdisciplinary analyses of the complex interrelations between contemporary neoliberal conservation practices in post colonial Africa into conversation with the well trodden territory of land use and contested land issues on the continent Anchored by an intellectual curiosity about the extent to which past practices continue into the present and with what consequences the book provides fresh insights into the complex relationship between land and conservation in contemporary Africa     *The Journal of the Royal Geographical Society of London* Royal Geographical Society (Great Britain), 1881 Includes list of members
