Jawaharlal Nehru A Biography Volume 3 1956 1964 1956 64 Vol 3:

Kautilya's Arthashastra Kajari Kamal, 2022-08-31 This book studies India's foreign policy through the lens of Kautilya's Arthashastra, an ancient Indian treatise on state and statecraft. It assesses the extent of influence of the foundational elements, core beliefs extrapolated from the Arthashastra, on the nation's international behaviour to understand the grand strategic preferences of independent India. The volume examines the basic realist and cultural underpinnings of statecraft, such as Yogakshema, Political End Goal, Saptanga, Seven Elements of State, Sadgunyas, Six Measures of Foreign Policy, Rajdharma, Duty of a King, Rajamandala, Circle of kings, and Dharma Order, mooted in the Arthashastra, which have withstood the test of time and space. It evaluates the continuity of strategic cultural traits under the themes of nonalignment, bilateral relations with China and Pakistan, and nuclear policy. An important intervention in the study of India's foreign policy, the book will be useful for scholars and researchers of foreign policy, defence policy, international relations, defence and strategic studies, political science, Indian political thought, political philosophy, classical literature, and South Asian studies. **India's Great Power Politics** Jo Inge Bekkevold, S. Kalyanaraman, 2020-12-22 This book examines India's foreign and defence policy changes in response to China's growing economic and military power and increased footprint across the Indo-Pacific. It further explores India's role in the rivalry between China and the United States. The book looks at the strategic importance of the Indian Ocean Region in the Indo-Pacific geopolitical landscape and how India is managing China's rise by combining economic cooperation with a wide set of balancing strategies. The authors in this book critically analyse the various tools of Indian foreign policy, including defence posture, security alignments, and soft power diplomacy, among others, and discuss the future trajectory of India's foreign policy and the factors which will determine the balance of power in the region and the potential risks involved. The book provides detailed insights into the multifaceted and complex relationship between India and China and will be of great interest to researchers and students of international relations, Asian studies, political science, and economics. It will also be useful for policymakers, journalists, and think tanks interested in the India-China relationship.

India and the Cold War Manu Bhagavan, 2019-08-13 This collection of essays inverts the way we see the Cold War by looking at the conflict from the perspective of the so-called developing world rather than of the superpowers through the birth and first decades of India's life as a postcolonial nation. Contributors draw on a wide array of new material from recently opened archival sources to literature and film and meld approaches from diplomatic history to development studies to explain the choices India made and to frame decisions by its policy makers. Together the essays demonstrate how India became a powerful symbol of decolonization and an advocate of non-alignment, disarmament, and global governance as it stood between the United States and the Soviet Union, actively fostering dialogue and attempting to forge friendships without entering into formal alliances. Sweeping in its scope yet nuanced in its analysis, this is the authoritative account of India and the Cold War. Contributors: Priya Chacko, Anton Harder, Syed Akbar Hyder, Raminder Kaur, Rohan Mukherjee, Swapna Kona.
