thematic and pedagogical which have been combined to create this hybrid reference work Particular attention is paid to the  
BTD s immediate forerunner and closest lexicographic relative the monolingual thematic learner s dictionary Detailed textual  
analyses of contemporary thematic dictionaries identify the characteristic features of the macrostructure microstructure and  
other components from a structural perspective In order to evaluate the usefulness of the BTD features identified the textual  
analyses are supplemented by three pieces of user research involving a questionnaire to elicit learners opinions a test on the  
effectiveness of the access structure and an experiment to discover how a learner uses a BTD      *Laboratory Manual to*
