

2024 Annual Labor Report

SMAAOMA's Labor Relations Department conducts the Annual Labor Report Survey (formerly, the State of the Industry Survey) which serves to enhance our understanding of labor relations in local areas and throughout the country. The survey and report initially started in 1989 and was conducted by the Construction Labor Research Council. Over time, the number of questions posed by the survey grew. In 2013, after consultation with a committee of chapter executives, SMAAOMA conducted a revised survey that was significantly shortened, and which has remained largely the same since.

Twenty-eight chapters responded to the 2023 Annual Labor Report Survey. The following is an overview of the survey results as compiled by SMAAOMA's labor relations staff:

2023 Year in Review

When comparing IFUE/OUers work-hours reported to SMAAOMA by local chapters in 2023 with work-hours reported in 2022:

- There was a 5.31% increase in work-hours reported.
- The Southern Region saw the largest percentage of increased hours reported, followed by the Western and Midwestern regions that also saw an increase in work-hours. The Northeastern region saw a decline in work-hours reported.

The chart below shows that work hours have been increasing since the massive dip in 2016, and the 2023 work hours have seen a significant increase from the work hours reports in 2022.
