Abstract

According to the standards set by the instructor and following appropriate demonstrations, the student will:

1. observes the instructor's demonstrations of care, handling, operation and quality control procedures of the urine analyzer.
2. "mentor" and evaluate one or more classmates on the operation of the Siemens Clinitek Status+.
3. perform routine maintenance and quality control on an automated urine analyzer as directed.
4. analyze assigned urine samples to obtain dipstick results within ± 1 pad reading of the instructor's results and matching microscopic results $\pm 20\%$ as outlined in the Microscopic Lab.
5. record results accurately.
6. analyze quality control results to determine quality control acceptability. (One set of controls per instrument will be performed and all students who use that instrument will record and utilize the information.)
7. recognize abnormal dipstick and microscopic results as have been outlined in previous lab exercises.
