the brain tissue intelligence steadily declines and most of its activities are compromised in AD Before diving into the level of  
AD diagnosis it is essential to highlight the fundamental differences between conventional machine learning ML and deep  
learning DL This work covers a number of photo preprocessing approaches that aid in learning because image processing is  
essential for the diagnosis of AD The most crucial kind of neural network for computer vision used in medical image  
processing is called a Convolutional Neural Network CNN The proposed study will consider facial characteristics including
