Knowledge of measurement and instrumentation is of increasing importance in industry Advances in automated
manufacturing and requirement to conform to various standards have resulted in a large number of computerised and
automated inspection techniques along with the classical metrology methods Manufacturers have to find new ways of
ensuring that the quality of their products and processes remains the best in the global market The best way for the
engineering sector to compete against industrialised nations is to focus on high quality value added engineering Principles of
Engineering Metrology explains the salient features in dimensional metrology as per IS and ISO standards methods It
