La Fin De Madeline:

Le syndrome dys-exécutif chez l'enfant et l'adolescent Alain Moret, Michèle Mazeau, 2019-06-18 Parmi les troubles dys ou troubles cognitifs spécifiques neuro développementaux ceux affectant les fonctions exécutives sont encore trop méconnus. Touchant des fonctions dites transversales ils n'ont pas de ramifications circonscrites ce qui rend leur repérage difficile. Favoriser l'établissement d'un diagnostic précis et rigoureux et ainsi permettre aux sujets qui en souffrent de bénéficier de stratégies thérapeutiques et pédagogiques susceptibles de les améliorer tel est le double objectif de ce livre. Cette 2^e édition propose des mises jour et enrichissements importants : nouveaux exemples présentant des situations et techniques rigoureusement rencontrées lors de l'exploration de pathologies génétiques, traitements pharmacologiques complémentaires. Composée de deux parties, cet ouvrage articule médical et pédagogique. Il présente des approches différentes mais qui s'imbriquent pour atteindre le même but : aider tous ceux qui seront amenés à soigner et accompagner les jeunes souffrant de troubles dys exécutifs. La première partie fait un point synthétique sur les aspects médicaux du syndrome dys attentionnel TDAH et dys exécutif. Après une description du développement normal de ces fonctions chez l'enfant, sont abordés leurs aspects pathologiques, symptômes et ramifications dans les apprentissages puis les stratégies et évaluations qui conduisent au diagnostic. Enfin sont indiquées les grandes lignes des prises en charge thérapeutiques médicamenteuses et éducatives. La seconde partie est consacrée au jeune dys exécutif en milieu scolaire : école primaire, collège et lycée. C'est dans ce cadre que s'expriment essentiellement ses difficultés. À travers un grand nombre d'exemples de devoirs choisis dans l'ensemble des disciplines scolaires : sciences, littérature, histoire, géographie, les auteurs dessinent une méthodologie générale de l'adaptation et jettent les bases d'une réflexion sur les principes qui aideront la laboration de stratégies compensatrices pertinentes indispensables pour ces jeunes.

As Europeans peered into an uncertain future they drew upon the Renaissance for meaning, precedents and identity. Many claimed to find inspiration or models in the Renaissance but as we move across the continent's borders and through the century's decades we find that the Renaissance was many different things to many different people. This collection brings together the work of sixteen authors who examine the many Renaissances conceived by European novelists and poets, artists and composers, architects and city planners, political
