and Post-conflict Reconstruction in the Great Lakes Region of Africa Lumumba-Kasongo, Tukumbi, 2017-11-28 The Great Lakes region of Africa is characterized by protest politics partial democratization political illegitimacy and unstable economic growth Many of the countries that are members of the International Conference on the Great Lakes Region ICGLR which are Burundi Angola Central African Republic Democratic Republic of the Congo Republic of the Congo Kenya Uganda Rwanda Sudan South Sudan Tanzania and Zambia have experienced political violence and bloodshed at one time or another While a few states have been advancing electoral democracy environmental protection and peaceful state building the overall intensity of violence in the region has led to civil wars invasion genocide dictatorships political instability and underdevelopment Efforts to establish sustainable peace meaningful socio economic development and participatory democracy have not been quite successful Using various methodologies and paradigms this book interrogates the complexity of the causes of these conflicts and examines their impact and implications for socio economic development of the region The non consensual actions related to these conflicts and imperatives of power struggles supported by the agents of savage capitalism have paralysed efforts toward progress The book therefore recommends new policy frameworks within regionalist lenses and neo realist politics to bring about sustainable peace in the region Les intelligences artificielles au prisme de la justice sociale. International Journal of Sustainable Development, 2007 **Is Democracy a Lost Cause?** Alfio Mastropaolo, 2024-08-22 Is Democracy a Lost Cause explores the current debate on democracy It starts by discussing the meaning of democracy and how the understanding of this important political concept has either broadened or contracted depending on changing political circumstances Mastropaolo then poses the question of what it means for democracy to be

the government of the people He deals with the way in which democratic government has been affected by changes in the fabric of society by the evolution of democratic theory itself and by the transformations affecting the state and political parties Political class and citizens attitudes towards democratic politics increasingly characterised by resentment and often taking the form of an anti politics are analysed in the concluding chapters *Géopolitique de la guerre des Forces Démocratiques Alliées* Muliwavyo Jaribu, 2024-10-24 Pourquoi placer le débat sur la géopolitique de la guerre des Forces Démocratiques Alliées dans la théorie du néoinstitutionnalisme Ce livre est une réponse à cette question Il explique comment les institutions les idéologies et les intérêts des acteurs de la gouvernance sécuritaire ont impacté négativement les stratégies de lutte contre les Forces Démocratiques Alliées en facilitant l'émergence du terrorisme dans la région frontalière entre la République démocratique du Congo et l'Ouganda Le rôle controversé des acteurs est l'origine de l'autochtonisation de ce groupe terroriste et de surcroît de la fragilisation du système de défense et de sécurité Ce néoinstitutionnalisme militarisé insiste sur les intérêts tant partagés tant antagoniques qui lient les acteurs aussi bien locaux nationaux régionaux qu'internationaux dans une dynamique généralement en faveur des Forces Démocratiques Alliées Dans son originalité cet ouvrage trace le panorama archéologique des enjeux qui ont conduit différents acteurs servir de tremplin sur lequel s'est greffé au fil du temps la criminalité sauvage des Forces Démocratiques Alliées Il rebondit sur le nouveau paradigme de la gouvernance sécuritaire contingente comme riposte stratégique adaptée aux politiques de lutte contre le terrorisme complexe et hybride *Le dirigeant de sociétés commerciales* Joseph Ayangma Ayangma, 2014-07-01 Le véritable dirigeant n'est pas nécessairement celui qui trône au sommet de la pyramide sociale Le dirigeant connu dont il est question dans ce premier tome est simplement un manager officiellement consacré par voie de corollaire hissé au sommet de la pyramide sociale Il est légalement et solennellement le gestionnaire social et engage éventuellement en cette qualité sa responsabilité **La direction du budget au Mali** Abdoulaye Fofana, 2020-11-27 La Direction du budget est considérée comme une sentinelle infatigable pragmatique stratégie protectrice de l'intérêt général et mérite d'être connue tant au plan juridique qu'au plan organisationnel En outre elle s'impose comme le vrai pilote inconnu des orientations de politiques publiques qui sont révélatrices des indicateurs politiques et sociaux ainsi que des indicateurs macroéconomiques En voulant gouverner par les finances publiques elle contribue à renforcer le pouvoir exorbitant de cette direction tout en rendant plus complexe son organisation et son fonctionnement **Revue française de science politique**, 2006 *International Journal*, 2006 **Autoritarismes démocratiques et démocraties autoritaires au XXI^e siècle** Olivier Dabène, Vincent Geisser, Gilles Massardier, 2008 Relégué au Musée des horreurs politiques l'autoritarisme semblait devoir être emporté par la vague de démocratisation qui a touché aussi bien l'Amérique latine l'Afrique noire et le monde arabomusulman que plus récemment les anciennes démocraties populaires européennes Pourtant la défaite de l'autoritarisme sur le terrain de la légitimité internationale n'a pas toujours produit de mutations décisives des relations de pouvoir au sein des États La libéralisation des économies loin d'entraîner celle

des sciences politiques internes a renforcé le pouvoir personnel des autocrates la mainmise des clans sur les richesses nationales et la manipulation des urnes Pire montrent les auteurs l'autoritarisme surgit là où on ne l'attendait plus au cœur même des systèmes pluralistes d'Europe et d'Amérique du Nord Les hymnes la bonne gouvernante de la Banque mondiale du FMI et de l'Union européenne sonnent en réalité le glas des principes fondateurs de la démocratie représentative Car la fictivisation des modes contractuels et négociés entre les groupes de pression les lobbies économiques et les pouvoirs transnationaux contribuent davantage à affaiblir les mécanismes de représentation démocratique Dans le contexte post 11 Septembre la question sécuritaire est devenue un enjeu majeur pour les démocraties occidentales comme pour les régimes autoritaires du Sud la prédiction du philosophe Ralf Dahrendorf pourrait bien se révéler exacte le XXI^e siècle sera le siècle de l'autoritarisme

Regulating Globalization Pierre de Senarclens, Ali Kazancigil, 2007 Offers analyses on global governance This book formulates proposals for achieving a more accountable transparent participatory global governance system together with an institutional architecture for regulating globalization that combines economic efficiency and social equity

Democratic Governance Séverine Bellina, Hervé Magro, Violaine de Villemeur, France. Ministère des affaires étrangères et européennes, 2009 Governance has become a key word in the lexicon of international relations over the last twenty years It is used loosely and invariably in a liberal idiom by scholars activists civil society organizations politicians and the voluntary sector In many respects it has attained the status of a fetish yet governance remains a notion that has multiple definitions a concept in the making Notwithstanding the imprecision with which the term is employed it has become an inescapable paradigm for the politics of development The contributors to this book drawn from among some of the world's best area studies specialists from North and South offer a diverse global critique of governance as deployed in several key areas institutions and state actors the rule of law democracy and human rights decentralization and state power development and last but not least international cooperation and the role of the World Bank the IMF and NGOs The geographical spread of the volume ranges from Africa to Latin America from Asia to the Middle East Their objectives include a reassessment of governance in its many manifestations an attempt to free the term from its often unhelpful linkage to the state and thereby apply it to other organizations and actors a re-evaluation of the Western dominated use of the term politically and an attempt to broaden its application beyond issues such as transparency and the fight against corruption and a search for innovative applications of the term driven by a consensus that transcends current economic and political inequalities

Crippling Epistemologies and Governance Failures Gilles Paquet, 2009 In *Crippling Epistemologies and Governance Failures* Gilles Paquet criticizes the prevailing practices of the social sciences on the basis of their inadequate concepts of knowledge evidence and inquiry concepts he claims have become methodological mental prisons Paquet describes the prevailing policy development process in Canada in terms of its weak information infrastructure poor accountability and inflexible organization design In contrast he suggests that social science and public policy should promote forms of serious play that

would allow organizations to experiment with new structures Paquet engages with numerous foundationalist programs in the social sciences in order to show their inadequacy and suggests important and unexplored directions in policy areas as diverse as education science health intergovernmental and foreign policy He closes the work with a plea for experimentalism in academic research policy development and organization design Published in English *Le constitutionnalisme de la troisième vague en Afrique francophone* André Cabanis, Michel L. Martin, 2010 Il existe très peu de travaux faisant le point de manière approfondie et comparative sur les constitutions qui encadrent les régimes politiques contemporains de l'Afrique francophone soit vingt trois pays Par ailleurs l'impact indéniable des agencements constitutionnels sur les évolutions politiques et l'importance attachée aujourd'hui par la communauté internationale et par les opinions publiques au constitutionnalisme considérer comme l'une des principales sources de la consolidation démocratique donnent toute sa pertinence ce livre **Les pouvoirs locaux au Niger** Jean-Pierre Olivier de Sardan, Mahaman Tidjani Alou, Laboratoire d'études et de recherches sur les dynamiques sociales et le développement local, 2009 Cette analyse ethnographique détaille des leçons locales au Niger intègre celles-ci dans leurs contextes locaux politiques sociaux culturels Cette démarche originale explique qu'il s'agisse du second volume d'une série sur Les pouvoirs locaux au Niger Il s'agit d'un apport majeur la socio anthropologie des processus électoraux en Afrique et au-delà qui repose sur des enquêtes approfondies menées sur douze sites au sein d'un même pays par des chercheurs de ce pays connaissant particulièrement bien les contextes locaux et utilisant une problématique commune Un tel comparatisme intensif de proximité est peu fréquent dans les méthodes qualitatives Portant sur l'ensemble du processus électoral depuis l'établissement des listeslectorales jusqu'à l'élection des maires par les conseils municipaux les résultats témoignent de comportements largement partagés par les militants des partis politiques et les cadres de l'administration et dessinent ainsi les traits principaux d'une culture électorale nigérienne très moderne fondée sur des normes pratiques contournant bien souvent le code électoral mais témoignant d'une réelle appropriation de l'institution électorale travers diverses techniques de jeu avec les règles du jeu Ont contribué cet ouvrage A Elhadji Dagobi E Hahonou O Hamani N Issaley O Makama Bawa M Moha A Mohamadou H Moussa Ibrahim J P Olivier de Sardan A Oumarou M Tidjani Alou I Younoussi
