**Convergences and Interferences**, 2016-09-12 How does one imagine plurality How does one find new strategies for  
writing diversity and polyphony How does one read the most challenging creative and critical works of the present time This  
bi lingual volume of twelve English and eight French papers proposes to breach linguistic critical frontiers by placing careful  
analysis of texts from different language traditions in a multi lingual and multi cultural dialogue In this collection of  
theoretically and politically aware close readings of contemporary cultural production the focus of analysis rests on the  
multiple and complex global convergences and interferences of cultural influences The collection foregrounds the work of  
innovative writers who seek to express the ungraspable presence of cultural newness at the same time as situating

themselves in the richness of detail of local lives This volume most particularly finds a balance of critical approach between the everyday attempts at negotiation and survival and the insight brought to the reader by postcolonial syncretic and feminist theoretical analysis     Bulletin International Bureau of the American Republics, 1908
