La Fin De La Mondialisation:

2030, la fin de la mondialisation ? Hervé Coutau-Bégarie, 2009-01-01 La crise des subprimes et les meutes de la faim ont ravivé ceux qui s'obstinaient ne pas à voir la fragilité du système international en ce début du XXI^e siècle. Les tonnantes succès techniques et économiques ont un coût humain et écologique considérable qui rend possible sinon probable une crise systémique qui remettra en cause la mondialisation. Est-il désormais possible d'envisager des scénarios d'évolution moyen terme c'est à dire sur les vingt prochaines années. Oui au-delà des incertitudes de tous ordres nous disposons tout de même de quelques lignes de force identifiables. Hervé Coutau-Bégarie dresse le constat exhaustif de tous les paramètres en jeu pour l'avenir de la France dans le monde un livre d'avertissement pour les prochaines années. *La Fin de la mondialisation* François Lenglet, 2013-09-18 Les signaux sont chaque jour plus clairs la phase actuelle de mondialisation touche sa fin. Né dans les années 1980 avec le système boursier mondial et la chute du mur de Berlin elle a reposé sur une utopie une planète unifiée par le libre change dirigée par le marché et la démocratie. Mais aujourd'hui le courant protectionniste remonte. Des entreprises notamment américaines relocalisent leurs industries dans leur pays. L'OMC tremble. Partout le nationalisme déborde. François Lenglet dévoile ici que nous sommes la fin d'un cycle. Désormais plus personne n'a honte de protéger son économie et de jouer sur sa monnaie. Il ne faut pas regretter la mondialisation. Malgré son indéniable effet de rattrapage pour des pays pauvres bien peu en ont profité. Avec clarté et humour ce livre décrit le monde qui vient. Un univers où les classes moyennes tiendront leur revanche et où le parasitisme des mafias volera en éclats. **Ethics and Justice. Éthique et justice** Peter Kemp, Noriko Hashimoto, 2017 The main theme of volume 6 of *Eco ethica* is Ethics and Justice which focuses on the idea of justice in a metaphysical social and personal sense. Justice is considered as a balance between opposite ambitions in interdependent persons and as equity in legislation but not as blind justice. Today it is valuable not only on the national but also on the cosmopolitan level. Before it became personal justice the idea of justice was considered metaphysical and social both in European and Chinese culture. However in modern times it is often reduced to a moral duty without meta ethical responsibility. The last section considers the importance of the philosophy of Paul Ricoeur 1913-2005 for clarifying the idea of justice. Series *Eco Ethica* Vol 6 Subject Philosophy Ethics. Anthropologica, 2004, *The International Legal System in Quest of Equity and Universality* Laurence Boisson de Chazournes, Vera Gowlland-Debbas, 2021-10-18 Georges Abi Saab began his writing and teaching at a time when the process of decolonization and thereafter the quest for emancipation began to make its far reaching impact on the international scene producing significant changes in the international environment both quantitatively in increasing the number of nation States and qualitatively in changing patterns of interests and claims. This was bound to result in new pressures on the international legal system itself and in a questioning of the traditional Eurocentric content of international law. In his work and teaching Professor Abi Saab viewed the dynamics of international law as a function of two driving forces the emergence of the third world and the sense of injustice. In his view the first driving

force the emergence of the third world raised the problem of exclusion exclusion from participation in the elaboration of international law and the decision making process and exclusion as beneficiaries of the resulting rules of international law At the same time this new force introduced diversity into the international scene reflecting the richness of the international community in its different facets This process remains relevant today reflecting the contemporary problem of exclusion of new actors as well as their quest for participation The second driving force the sense of injustice posed a teleological problem for him that of defining community values in order that they capture the different facets of justice whether formal or distributive So long as there is no effective organic structure international law in his view will continue to remain effectiveness oriented reflecting rather than impacting on the structures of power Nevertheless it is undeniable that there is an on going process of development of community values and interests as Georges Abi Saab wrote with reference to international crimes law like all social phenomena is a continuous unfolding a continuous process of elaboration He has also considered that the dynamics of the international legal process itself can be captured from the perspective of international organizations as vehicles for change in the international system From his early writings Georges Abi Saab approached the United Nations Charter as a blueprint both normative and institutional for a certain type of international society International institutions with all their imperfections continue for him to be the means of realization of the law of cooperation which lies at the heart of his concept of the international system The themes selected for this volume in honour of Professor Georges Abi Saab are intended to reflect his unique and pioneering contribution to the field of international law The contributors are drawn from what he has always considered to be his large family of former students in his forty years of teaching Georges Abi Saab has acted as mentor to generations of students from all over the world who have benefited from his vision insights originality and creative and stimulating use of language The contributors also include colleagues and friends who share a similar vision of the international legal system
