## **Le Monde Naturel Et Le Mouvement De L'existence Humaine:**

*Le monde naturel et le mouvement de l'existence humaine* J. Patočka, 1988-05-31      **Le monde naturel et le mouvement de l'existence humaine** Jan Patočka, 2023-09-21      Le monde naturel et le mouvement de l'existence humaine Jan Patočka, 1988      Phenomenology and Intercultural Understanding Kwok-Ying Lau, 2016-09-29 This book approaches the topic of intercultural understanding in philosophy from a phenomenological perspective. It provides a bridge between Western and Eastern philosophy through in-depth discussion of concepts and doctrines of phenomenology and ancient and contemporary Chinese philosophy. Phenomenological readings of Daoist and Buddhist philosophies are provided; the reader will find a study of theoretical and methodological issues and innovative readings of traditional Chinese and Indian philosophies from the phenomenological perspective. The author uses a descriptive rigor to avoid cultural prejudices and provides a non-Eurocentric conception and practice of philosophy. Through this East-West comparative study, a compelling criticism of a Eurocentric conception of philosophy emerges. New concepts and methods in intercultural philosophy are proposed through these chapters. Researchers, teachers, post-graduates, and students of philosophy will all find this work intriguing, and those with an interest in non-Western philosophy or phenomenology will find it particularly engaging.

*Jan Patočka and the Heritage of Phenomenology* Erika Abrams, Ivan Chvatík, 2010-09-29 Whereas for the wider public Jan Patočka is known mainly as a defender of human rights and one of the first spokespersons of Charter 77 who died in Prague several days after long interrogations by secret police of the Communist regime, the international philosophical community sees in him an important and inspiring thinker who in an original way elaborated the great impulses of European thought, mainly Husserl's phenomenology and Heidegger's philosophy of existence. Patočka also reflected on history and the future of humanity in a globalized world and laid the foundations of an original philosophy of history. His work is a subject of lively philosophical discussion, especially in French and German-speaking countries, and recently also in Spanish-speaking in the U.S.A. and in the Far East. Scholars from around the world who are interested in the philosophy of Jan Patočka gathered in Prague to commemorate his centenary and the thirtieth anniversary of his death. The conference explored the significance of his work and its continuing influence on contemporary philosophy. The volume presents selected papers from the conference in English language.

**Self-Identity and Powerlessness** Alice Koubová, 2013-05-30 In *Self-Identity and Powerlessness* Alice Koubová proposes a conception of human existence that does not essentially depend on the definition of self-identity. The author shows that the philosophical stress on human identity fails to grasp essential aspects of human existence. By emphasizing the moments of Dasein's powerlessness in Heidegger's fundamental ontology, she develops in her analysis of various philosophers' literary examples and social psychology an original phenomenology of alternation of existence and affair. How necessary is identity for thinking? Are we capable of philosophical thought even when we have neither ourselves nor the world under our full control? Is it possible to relax, become powerless, and yet think precisely? These questions are to be

answered in this book

**The Risk of Freedom** Francesco Tava, 2015-12-11 The Risk of Freedom presents an in depth analysis of the philosophy of Jan Patočka one of the most influential Central European thinkers of the twentieth century examining both the phenomenological and ethical political aspects of his work In particular Francesco Tava takes an original approach to the problem of freedom which represents a recurring theme in Patočka's work both in his early and later writings Freedom is conceived of as a difficult and dangerous experience In his deep analysis of this particular problem Tava identifies the authentic ethical content of Patočka's work and clarifies its connections with phenomenology history of philosophy politics and dissidence The Risk of Freedom retraces Patočka's philosophical journey and elucidates its more problematic and less evident traits such as his original ethical conception his political ideals and his direct commitment as a dissident

*Thinking After Europe* Francesco Tava, Darian Meacham, 2016-08-16 Jan Patočka perhaps more so than any other philosopher in the twentieth century managed to combine intense philosophical insight with a farsighted analysis of the idea and challenges facing Europe as a historical cultural and political signifier As a political dissident in communist Czechoslovakia he also became a moral and political inspiration to a generation of Czechs including Václav Havel He accomplished this in a time of intense political repression when not even the hint of a unified Europe seemed visible by showing in exemplary fashion how concrete thought can be without renouncing in any way its depth Europe as an idea and a political project is a central issue in contemporary political theory Patočka's political thought offers many original insights into questions surrounding the European project Here for the first time a group of leading scholars from different disciplines gathers together to discuss the specific political impact of Patočka's philosophy and its lasting significance

**Europe, Or The Infinite Task** Rodolphe Gasché, 2009 Gasché's latest book explores the concept or idea of Europe in the philosophies of Husserl Heidegger Patočka and Derrida and how it is linked to the notions of rationality universality world the relation the other and responsibility

**Un monde parfait. Géographies de l'Amérique imaginaire** Alessia Magliacane, 2013-06-01 En vingt deux chapitres ponctués delements géographiques minéralogiques urbains topographiques l'auteur reconstruit un contre-scénario de la culture post capitaliste en suivant une route de l'imaginaire nord américain suspendue entre l'incessante demande d'émancipation politique culturelle raciale de genre et les terribles rechutes sociales économiques symboliques et symptomatiques
