Le Capitalisme Hors La Loi:

Le Capitalisme hors la loi Marc Roche, 2011-09-01 Pourquoi Nicolas Sarkozy et Angela Merkel considèrent-ils le capitalisme de l'ombre comme la plus grave menace laquelle nous sommes confrontés ? Comment BP s'est-il organisé pour se protéger des catastrophes pétrolières ? Comment le lobby des grandes banques arrive-t-il à ses fins ? Les agences de notation vont-elles tuer l'euro en mettant de l'huile sur le feu ? Un capitalisme opaque et spéculatif s'oppose désormais au capitalisme réglementé. Ce système retient en otage États et consommateurs sans parler des salariés et des petits actionnaires. Mais ce capitalisme lésiste entre contournement massif des règles par le hors bilan et paradis fiscaux : les interdits ont explosé. Est-on impuissant face ce pouvoir occulte que la classe politique n'ose pas affronter ? Une extraordinaire enquête de Paris Hong Kong de Genève Washington aux conclusions inquiétantes. Car si le système reste globalement assez efficace, il multiplie néanmoins les risques. Pour tout le monde. Auteur d'un livre très remarqué sur l'empire Goldman Sachs, La Banque, Marc Roche correspondant du Monde, Londres, nous revient avec effarement les dérives d'un système qui a chappé tout contrôle.

Contradictions Paul Zarembka, 2013-05-09 Bringing together renowned political economy scholars, this volume analyzes two decisive factors in the world spread of capitalism: a shift toward dominance of the financial sector, global wage differentials so deep that recognition of a labor aristocracy cannot be avoided. Hegel, Marx and the Contemporary World Kaveh Boiveiri, Emmanuel Chaput, 2016-06-22 This book is the result of a three day conference held in April 2014 at the University of Montreal, Canada, discussing the relevance of the work of Hegel and Marx in today's world, particularly with regard to the ecological, economic, political and anthropological crisis facing humanity. Accordingly, the book is an exploration of the specific nature of the crisis we face both in our everyday lives and in the realm of theory. However, if indeed the necessity of a proper critique, Kritikos, is intimately linked to a state of crisis, Krisis, the conceptual frame necessary to produce such a critique may itself be in crisis. Among the vast number of critical oppositions to contemporary capitalism, what are the keys available to understand the present forms of human conditions, alienation and exploitation? Controversies and divisions among the different tendencies within the critical tradition tend to highlight the point that there is also a theoretical crisis which prevents a proper diagnosis of the actual crisis and prevents in turn a proper plan of action from being established. Looking back to Marx and Hegel allowed a return, if not to the sources, at least to two unavoidable influences among the various critical approaches to capitalism. Be it with or against Hegel and/or Marx, the criticisms of modernity, post modernity and capitalism cannot neglect the shadows of these thinkers. Both Marx's and Hegel's philosophical, sociological and political enterprises must be linked historically to the will to diagnose and solve what they saw as the most important crises of their own time. From Hegel's case, the spiritual crisis which followed the advent of modernity and its accompanying turmoil, to the social and political crisis caused by capitalism and the advent of a new industrial society in Marx's case. Both intellectual ventures are at every turn haunted by the notion of crisis. This book will appeal to anyone interested in Hegel's and Marx's

philosophical and political theories Not only does it provide the historical context necessary to understand properly the relation between Marx and Hegel but it also places the relevance of their teachings for the contemporary reader in perspective

Legalizing Theft Alain Deneault, 2018-06-11T00:00:00Z When our infrastructures deteriorate when social benefits are frozen when our living conditions are precarious it is because of tax havens A source of growing inequalities and colossal tax losses the use of tax havens by large corporations and wealthy individuals explains the increasingly popular austerity policies of governments in the West With formidable efficacy and clarity and in the wake of the Paradise Papers leak Alain Deneault raises the political questions behind of this legalized theft What are the consequences of tax havens How do we counter the private sovereignty thus conferred on the powerful As taxpayers shoulder the social and financial burdens while corporations hide billions in off shore tax havens Deneault identifies the urgent need to put an end to this legalized theft

Charisma and Patronage Dr Andrew D McCulloch, 2014-09-28 A detailed and richly illustrated analysis of charisma and the political and cultural conditions in which charismatic figures arise this work of historical sociology critically engages with Max Weber's ambiguous concept of charisma to examine the charismatic careers of a number of figures including Joan of Arc Hitler Nelson Mandela and Jesus With close attention to the social and political legacy of charisma for modern capitalism it also examines the emergence of a global class of the super rich a process buttressed by a belief on the part of business leaders in their own charismatic powers
