Le Kamasutra En Positions:

Kamasutra Vātsyāyana, 2002 The Kamasutra is the oldest extant Hindu textbook of erotic love. It is about the art of living, about finding a partner, maintaining power in a marriage, committing adultery, living as or with a courtesan, using drugs, and also about the positions in sexual intercourse. It was composed in Sanskrit, the literary language of ancient India, sometime in the third century of the common era, probably in North India. It combines an encyclopedic coverage of all imaginable aspects of sex with a closely observed sexual psychology and a dramatic novelistic narrative of seduction, consummation, and disentanglement. Best known in English through the highly mannered, padded, and inaccurate nineteenth-century translation of Sir Richard Burton, the text is presented here in an entirely new translation into clear, vivid, sexually frank English, together with three commentaries: excerpts from the earliest and most famous Sanskrit commentary (13th century) and from a twentieth-century Hindi commentary and explanatory notes by the two translators. The lively and entertaining introduction by Wendy Doniger discusses the history of the text and its reception in India and Europe, analyses its attitudes toward gender and sexual violence, and sets it in the context of ancient Indian social theory, scientific method, and sexual ethics.

Kamasutra Mallanaga Vatsyayana, Vātsyāyana, 2009-03-26 The Kamasutra is the oldest extant Hindu textbook of erotic love. About the art of living as well as about the positions in sexual intercourse, it is here newly translated into clear, vivid, sexually frank English, together with three commentaries: excerpts from the earliest and most famous Sanskrit commentary (13th century), a twentieth-century Hindi commentary, and explanatory notes by the translators. The edition is enhanced by a selection of colour plates from an early edition of the work.

Les Kama Sutra , Tournez le dos au mal du siècle Dr Brice Edouard, 2018-05-23 Il est bien le mal du siècle. Les causes sont multiples: stress, mode de vie trop sédentaire, prise de poids, activités sportives inadéquates, trop violentes, trop rapides, et gestes quotidiens mal adaptés qui accroissent les contraintes exercées sur la colonne vertébrale, véritable pilier du corps. L'auteur propose de faire le tour du sujet en identifiant les causes et décrivant les diverses méthodes, en donnant des conseils de prévention et de protection.

European Culture and the Media Ib Bondebjerg, Peter Golding, 2004-07-01 We are witnessing a dynamic reshaping of the European mediascape. This has been underway for more than a decade since the fall of the Berlin wall in 1989: the growing impact of globalisation and the birth of new technologies and new media, or the convergence between old and new media. A new and more intense mediatization of society and everyday life is emerging. This is happening alongside the rapid reconstruction of the cultural and economic landscape of Europe itself. In this transformation, the communicative and ideological dimensions, the digitalisation of technology and changes in culture, the imaginary, the discursive universe of politics and communication are all crucial areas for research. The cultural industries: film, television, books, magazines, entertainment, and music, but also the world of news, actuality, infotainment, and the internet are key areas for the study of what we may begin to understand as a changing European culture in all its complexity and with all its differences and conflicts.
