Simone Weil (1909-1943) Receptions and Actuality, Part 2: Aesthetics, Ethics and Spirituality

Yvanka Raynova, 2025-11-17 The second part of the volume dedicated to the reception and actuality of Simone Weil's philosophy explores its impact in the fields of ethical theory aesthetics mathematics and religious thought More specifically the essays examine the concepts of empathy obedience in attentiveness and nourishment as defined by Weil as well as the reception and influence of her work in art and literature

Contemporary Philosophical Debates on Values Yvanka Raynova, 2025-08-26 The following special issue is dedicated to the 20th anniversary of the founding of the Institute for Axiological Research and its journal Labyrinth The title Current philosophical debates on values may seem very broad at first sight However the goal here is not to present and discuss all or even the most important contemporary debates on values but only a few that are at the core of contemporary philosophy The provided essays deal with values in various contexts such as human and women rights emancipation morality etc While they do not claim to provide definitive answers to the posed questions they offer new perspectives and interpretations that can inspire new research on the relationships between values fundamental rights norms and emotions

Volume 9: Aesthetics and Philosophy of Art Guttorm Fløistad, 2007-03-16 The present volume is a continuation of the series Contemporary Philosophy As with the earlier volumes in the series the present chronicles purport to give a survey of significant trends in contemporary philosophy The need for such surveys has I believe increased rather than decreased over the years The philosophical scene appears for various reasons more complex than ever before The continuing process of specialization in most branches the increasing contact between philosophers from various cultures the emergence of new schools of thought particularly in philosophical logic and in the philosophy of language and ethics and the increasing attention being paid to the history of philosophy in discussions of contemporary problems are the

most important contributing factors Surveys of the present kind are a valuable source of knowledge of this complexity The surveys may therefore help to strengthen the Socratic element of modern philosophy the intercultural dialogue or Kommunikationsgemeinschaft So far eight volumes are published in this series viz Philosophy of Language and Philosophical Logic Volume 1 Philosophy of Science Volume 2 Philosophy of Action Volume 3 Philosophy of Mind Volume 4 African Philosophy Volume 5 Medieval Age Philosophy Volume 6 1 and Volume 6 2 Asian Philosophy Volume 7 and Philosophy of Latin America Volume 8 *Images of man in ancient and medieval thought* Bossier, 2025-01-20 *Negative Knowledge* Sebastian Hüscher, Isabelle Koch, Philipp Thomas, 2020-08-10 The advent of Modernity was accompanied by a radical criticism of traditional metaphysics In particular since the 20th century rationality is predominantly conceived of as positivistic and scientistic reducing reality to what is positively knowable The price to pay is the cutting out of any kind of phenomenon of negativity The present volume explicitly explores the philosophical and epistemological potential of negativity The contributions brought together in this book tackle the question of negativity from historical as well as from systematical perspectives From different angles they defend the claim that philosophical approaches recurring to negativity can build a non reductive conceptualization of rationality and thus offer a valuable contribution to the orientation of humankind in the 20th and 21st century This volume contains contributions in English French and German *Studia islamica* Robert Brunschwig, 2004 **Montaigne; His Personal Relations to Some of His Contemporaries, and His Literary Relations to Some Later Writers; a Compilation** Grace Norton, 1908 *The Studio*, 1902 *Cours élémentaire de Philosophie* I.
