Le bonobo, Dieu et nous Frans de Waal, 2013 Dans ce livre remarquable leminent primatologue Frans de Waal démontre que la morale humaine n'est pas imposée d'en haut Enracinée en profondeur dans notre héritage animal elle nous vient de l'intérieur Elle est donc le produit de l'évolution Pendant des années de Waal a vu des chimpanzés se conforter des voisins en détresse des bonobos partager leurs aliments ou des éléphants s'entraider Aujourd'hui il publie des propos des primates du comportement thique dans les sociétés primates de nouvelles preuves qui renforcent la thèse des origines biologiques du sens humain de l'quit ou de la bonté Tissant son texte de récits saisissants issus du monde animal et d'analyses philosophiques clairantes de Waal explique la morale par un processus venu d'en bas en mettant en évidence combien nous sommes liés aux animaux Il explore ainsi pour la première fois les conséquences de son travail pour notre compréhension de la religion moderne Quel que soit le rôle des impératifs moraux qu'elle dicte on peut la considérer comme une ouvrière de la onzième heure venue s'ajouter nos instincts naturels de coopération et d'empathie **Le Bonobo Dieu et nous** labore un raisonnement original fondé sur la biologie évolutionniste et la philosophie morale Pensant toujours hors des sentiers battus de Waal apporte une nouvelle perspective sur la nature humaine et sur nos efforts pour donner du sens à notre vie **The Bonobo and the Atheist: In**

Search of Humanism Among the Primates Henry Cabot Lodge (Jr.), Frans B. M. Waal, 2013-03-25 Moral behavior does not begin and end with religion but is in fact a product of evolution *The Bonobo and the Atheist* Frans de Waal, 2014-03-11 In this lively and illuminating discussion of his landmark research esteemed primatologist Frans de Waal argues that human morality is not imposed from above but instead comes from within Moral behavior does not begin and end with religion but is in fact a product of evolution For many years de Waal has observed chimpanzees soothe distressed neighbors and bonobos

share their food Now he delivers fascinating fresh evidence for the seeds of ethical behavior in primate societies that further cements the case for the biological origins of human fairness Interweaving vivid tales from the animal kingdom with thoughtful philosophical analysis de Waal seeks a bottom up explanation of morality that emphasizes our connection with animals In doing so de Waal explores for the first time the implications of his work for our understanding of modern religion Whatever the role of religious moral imperatives he sees it as a Johnny come lately role that emerged only as an addition to our natural instincts for cooperation and empathy But unlike the dogmatic neo atheist of his book s title de Waal does not scorn religion per se Instead he draws on the long tradition of humanism exemplified by the painter Hieronymus Bosch and asks reflective readers to consider these issues from a positive perspective What role if any does religion play for a well functioning society today And where can believers and nonbelievers alike find the inspiration to lead a good life Rich with cultural references and anecdotes of primate behavior *The Bonobo and the Atheist* engagingly builds a unique argument grounded in evolutionary biology and moral philosophy Ever a pioneering thinker de Waal delivers a heartening and inclusive new perspective on human nature and our struggle to find purpose in our lives *A Plea for the Animals* Matthieu

Ricard,2016-10-04 A powerful and wide ranging indictment of the treatment of animals by humans and an eloquent plea for animal rights Every cow just wants to be happy Every chicken just wants to be free Every bear dog or mouse experiences sorrow and feels pain as intensely as any of us humans do In a compelling appeal to reason and human kindness Matthieu Ricard here takes the arguments from his best sellers *Altruism* and *Happiness* to their logical conclusion that compassion toward all beings including our fellow animals is a moral obligation and the direction toward which any enlightened society must aspire He chronicles the appalling sufferings of the animals we eat wear and use for adornment or entertainment and submits every traditional justification for their exploitation to scientific evidence and moral scrutiny What arises is an unambiguous and powerful ethical imperative for treating all of the animals with whom we share this planet with respect and compassion

A Semiotic Methodology for Animal Studies Pauline Delahaye,2019-11-13 This monograph is about new perspective in animal studies methodology by using concepts and tools from the field of semiotics It proposes a reflexion on current challenges and issues in the ethology field and introduces different semiotics biosemiotics zoosemiotics as potential methodological solutions The chapters cover many aspects of ethology where semiotics can be a helpful hand studies of language culture cognition or emotions issues about complex endangered or variable species It explains why these points are difficult to study for actual ethology why they still matter for researchers biodiversity actors or wildlife programs and how an interdisciplinary study with a semiotic point of view can help understand them This book will appeal to a wide readership from researchers and academics in living sciences as well as in linguistics fields to other professionals veterinarian wildlife managers zookeepers and many others who feel the need to better understand some aspects of animals they are working with Students with animal focus should read this book as an introduction to interdisciplinary methodology and a proposition

Le jardin d'Eden : lieu du péché originel Jean Guichene, 2023-02-01 Comment comprendre le récit biblique du jardin d'Eden et la notion de péché originel face à ce que les sciences nous disent de notre univers L'auteur prend ici en compte le fait que les points de vue d'observation d'un même univers ne diffèrent pas pour la Bible et pour les sciences Quel rapport peut avoir ou pas le péché des êtres humains avec les catastrophes naturelles et la mort biologique avec la corruption la décomposition du corps matériel L'auteur aborde alors la question de la blessure de l'être humain dans notre monde avec l'optique du péché originel mais sans oublier l'action d'un adversaire du genre humain qui peut être dénommé serpent Satan d
