Le Grand Malentendu:

Young People and Social Policy in Europe L. Antonucci, M. Hamilton, Steven Roberts, 2014-10-07 This edited collection provides the first in depth analysis of social policies and the risks faced by young people The book explores the effects of both the economic crisis and austerity policies on the lives of young Europeans examining both the precarity of youth transitions and the function of welfare state policies

The Halted March of the European Left Matt Myers, 2025-02-06 The European left seemed to be in rude health during the 1970s Never had so many political parties committed to representing the working class been in power simultaneously across the continent New forms of mobilisation led by female immigrant and young wage earners seemed to reflect the growing strength of the workers movement rather than its pending obsolescence Parties and trade unions grew rapidly as a diverse new generation entered the ranks Why did the left's forward march halt so abruptly The Halted March of the European Left shows how the left's defeats after the mid 1970s were not the inevitable result of de industrialisation or more precisely the transition to a globalised and post Fordist world that abolished the working class as a great historical actor Choices that were made during a concentrated but decisive moment contributed to the left's lost battles The British French and Italian left managed the shift to a new era by marginalising those groups of workers who had invested it with hopes of social and political transformation Communist socialist and social democratic parties helped disempower the new components of the working class in workplaces in society in the political system and successfully disciplined their traditional working class supporters The left encountered a crisis of purpose and identity a sense of both defeat and lost opportunities and the dissolution of the idea of a community of fate amongst workers This book provides a comparative analysis of the left's fragmenting relationship with the working class and a feel for the culture of three leading industrial countries during a traumatic transition of late twentieth century history It concludes that decisions taken by the left during the 1970s contributed to the tragic inversion of the expected outcome of that hopeful decade

Technologies and African Societies in Pandemic Times Saikou Diallo, Jean-Jacques Maomra Bogui, Julien Atchoua, 2023-07-12 In February 2020 the Coronavirus pandemic became a worldwide health emergency and in April of that year the ITU and the WHO created a joint declaration to show their commitment to using ICTs to overcome the pandemic Technologies and African Societies in Pandemic Times explores the impact of Covid 19 on African societies in North and West Africa through the lens of technology and social media The authors of this book highlight how everyday people dealt with the pandemic from its onset through the process of the development of the vaccine and to its eventual dissemination This book tells stories of survival of coping and eventually of economically thriving The authors also describe how in this extremely challenging moment for humanity people used music art and social media to reinvent the community to share joy and pain and to try to remain connected
